

Rape / Sexual Abuse

When a school is notified that a rape or other sexual abuse may have occurred, the Emergency Response Team, the District's Support Team and school personnel must protect the identity and right to privacy of the alleged victim and the alleged perpetrator. News of the incident should be contained as much as possible. The services provided to the victim and her/his family must be kept confidential and should be coordinated with outside providers, such as a rape crisis center, children's advocacy center, or hospital emergency room.

❑ Rape / Sexual Abuse becomes a crisis to be managed by school staff only when one or more of the following conditions exist:

- A rape or other sexual abuse occurs on campus
- A member of the alleged victim's family requests intervention
- The alleged victim's friends request intervention
- Rumors and myths of the alleged incident are widespread and damaging
- Students witness police action or emergency services response

❑ When one or more of the above conditions exists, the following should be implemented:

- Confidentiality should be maintained during the investigation (by all staff members)
- Ensure the short-term physical safety of the student
- The school nurse, counselor or other staff shall administer first aid and secure immediate medical treatment
- Notify appropriate law enforcement, and/or rape crisis center
- Designate the school counselor or staff member closest to the alleged victim to review the types of support she or he may need
- Determine which peers close to the victim may need support
- Take action to control rumors
- Store all records related to rape or other sexual abuse incident and services provided in a confidential file not available to any and/or all staff
