

# EMERGENCY MANAGEMENT PLAN

Kentucky Center for School Safety

**Law**

**Appendix D: Kentucky Department of Education Guidance For:  
Senate Bill 8/House Bill 354 Emergency Management Planning  
For Schools and Districts**

## Introduction

The Kentucky General Assembly passed [Senate Bill 8](#), and [HB 354](#) which changes Kentucky's current emergency plan law ([KRS 158.163](#)), took effect on **June 25, 2013**. The bills expand the current law by requiring schools and districts to include community first responders in their emergency plans, and present an opportunity for review and refinement of current emergency and safety practices through continuous improvement. These bills are a logical step taken after recent tragic events occurring in our nation's schools, ranging from intruders to tornadoes, and focus our attention once again on our goals and efforts to keep our students and staff safe.

As part of implementation for SB8/HB354, KDE has developed a set of assurances that will be monitored through the district [Comprehensive District Improvement Plan \(CDIP\)](#). The [Assurances hyperlink](#) will allow you to preview the assurances for both the district and school that will be uploaded into the CDIP/CSIP this fall. Schools should review and refine their current Emergency Plan then share with their school council for adoption annually. **Adoption by the school council must occur prior to completing assurances in CDIP and no later than November 1st.**

### Part 1: Emergency Preparedness Definitions\*

**Prevention**, means the capabilities necessary to avoid, deter, or stop an imminent crime or threatened or actual mass casualty incident. Prevention is the action schools take to prevent a threatened or actual incident from occurring.

**Protection** means the capabilities to secure schools against acts of violence and manmade or natural disasters. Protection focuses on ongoing actions that protect students, teachers, staff, visitors, networks, and property from a threat or hazard.

**Mitigation** means the capabilities necessary to eliminate or reduce the loss of life and property damage by lessening the impact of an event or emergency. In this document, "mitigation" also means reducing the likelihood that threats and hazards will happen.

**Response** means the capabilities necessary to stabilize an emergency once it has already happened or is certain to happen in an unpreventable way; establish a safe and secure environment; save lives and property; and facilitate the transition to recovery.

**Recovery** means the capabilities necessary to assist schools affected by an event or emergency in restoring the learning environment.

**\*Note:** The majority of Prevention, Protection, and Mitigation activities generally occur before an incident, although these three areas do have ongoing activities that can occur throughout an incident. Response activities occur during an incident, and Recovery activities can begin during an incident and occur after an incident. **Source:** *U.S. Department of Education/FEMA: Guide for Developing High Quality School Emergency Operations Plans (June 2013)*

## Part 2: Guidance for the Implementation of SB 8/HB 354

The passage of [Senate Bill 8](#) and [HB 354](#) changes Kentucky's current emergency plan law ([KRS 158.163](#)), took effect on **June 25, 2013**. These bills expand the current law by requiring schools and districts to include community first responders in their emergency plans, and require an annual report to KDE by November 1 of each school year, specifically:

### **SB 8/HB 354 requires schools and districts to:**

1. Adopt an emergency plan to include procedures to be followed in case of fire, severe weather, or earthquake, or if a building lockdown as defined in [KRS 158.164](#) is required; the principal shall discuss the emergency plan with all school staff prior to the first instructional day of each school year and shall document the time and date of any discussion.
2. Provide, after adoption, the emergency plan, along with a complete diagram of the facility, to appropriate local first responders.
3. Establish primary and secondary evacuation routes for all rooms located within the school and post the routes in each room by any doorway used for evacuation.
4. Identify severe weather safe zones to be reviewed by the local fire marshal or fire chief and post the location of safe zones in each room of the school.
5. Develop practices for students to follow during an earthquake.
6. Conduct, at a minimum, emergency response drills to include one (1) severe weather drill, one (1) earthquake drill and one (1) lockdown drill within the first thirty (30) instructional days of each school year and again during the month of January.
7. Develop and adhere to practices to control the access to each school building, including requiring that all visitors report to the front office of the building and provide valid identification, state the purpose of the visit; and provide a visitor's badge to be visibly displayed on a visitor's outer garment.
8. Follow (as much as possible) the recommendation that all classroom doors be locked during instructional time, if the door can be locked from the outside and opened from the inside without a key.
9. Require local boards to review Crime Prevention through Environment Design Principles when constructing or renovating a school building.
10. Superintendent verification of district-wide compliance must be sent to KDE by November 1st of each school year.

Prior to adoption of your new Emergency Plan, you should review your school's current preparedness status and determine what needs development and refinement in order to meet the new safe school requirements. While it is essential to ensure compliance of this statute, it is also important to strive for best practice of school safety through a continuous improvement process. Systematic, informed planning for your school's emergency plan will only increase the well-being for your students, staff and community. The following **Emergency Plan Refinement Worksheet** has been developed as a tool to assist with the review and refinement of your current Emergency Plan as a method to meet the requirements of the new statute in a timely manner. It will also help to inform planning for the entry of the School Safety Assurances within the CDIP due to KDE no later than November 1st annually.

<b>Part 3: Emergency Management Plan Refinement Worksheet</b>				
<b>Required School Safety Assurances</b>		<b>Yes</b>	<b>No</b>	<b>Date Completed</b>
<b>1.</b>	Does my school have a written Emergency Management Plan (EMP)?			
<b>2.</b>	Did the SBDM Council adopt a policy requiring the development and adoption of an EMP?			
<b>3.</b>	Did the SBDM Council adopt the EMP?			
<b>4.</b>	Has my school provided the local fire responders with a copy of the school's EMP and a copy of the school's floor plan?			
<b>5.</b>	Was the EMP reviewed with faculty and staff prior to the 1 <sup>st</sup> instructional day of the school year?			
<b>6.</b>	Were local law enforcement and/or fire officials invited to review the EMP?			
<b>7.</b>	Are evacuation routes posted in each room, at any doorway used for evacuation, with primary and secondary routes indicated?			
<b>8.</b>	Has the local fire marshal reviewed the designated safe zones for severe weather and are they posted in each room?			
<b>9.</b>	Have practices been developed for students to follow during an earthquake?		<b>Yes</b>	<b>No</b>
	Plan	What are the current practices? Are current practices working effectively?	Person(s) Responsible	Date Completed
	Do	Do current practices need to be changed? What steps need to occur?	Person(s) Responsible	Date Completed
	Study	What are the outcomes? How will success be measured?	Person(s) Responsible	Date Completed
	Act	What needs refinement? When will practices be evaluated?	Person(s) Responsible	Date Completed

<b>10.</b>	Has my school developed and adhered to practices designed to ensure controlled access to the school (exterior doors, front entrance, classrooms, visitor must sign-in and display ID badges)?		Yes	No	Date Completed
	Plan	What are the current practices? Are current practices working effectively?	Person(s) Responsible		Date Completed
	Do	Does the plan need to be changed? What steps need to occur?	Person(s) Responsible		Date Completed
	Study	What are the outcomes? How will success be measured?	Person(s) Responsible		Date Completed
	Act	What needs refinement? When will practices be evaluated?	Person(s) Responsible		Date Completed
<b>11.</b>	Has my school completed all four required emergency response drills in the first 30 instructional days of the school year (fire, lockdown, severe weather, and earthquake)?		Yes	No	Date Completed
	Plan	What are the current prevention practices? Are current practices working effectively?	Person(s) Responsible		Date Completed
	Do	Does the plan need to be changed? What steps need to occur?	Person(s) Responsible		Date Completed
	Study	What are the outcomes? How will success be measured?	Person(s) Responsible		Date Completed
	Act	What needs refinement? When will plans be evaluated?	Person(s) Responsible		Date Completed

<b>12.</b>	Has my school completed all four required emergency response drills during the month of January (fire, lockdown, severe weather and earthquake)?		Yes	No	Date Completed
	Plan	What are the current processes? Are current processes working effectively?	Person(s) Responsible		Date Completed
	Do	Does the plan need to be changed? What steps need to occur?	Person(s) Responsible		Date Completed
Study	What are the outcomes? How will success be measured?	Person(s) Responsible		Date Completed	
Act	What needs refinement? When will practices be evaluated?	Person(s) Responsible		Date Completed	
<b>13.</b>	Has the EMP been reviewed and revised as needed by the SBDM Council, principal, and first responders (annually)?		Yes	No	Date Completed
	Plan	What are the current practices? Are current practices working effectively?	Person(s) Responsible		Date Completed
	Do	Does the plan need to be changed? What steps need to occur?	Person(s) Responsible		Date Completed
Study	What are the outcomes? How will success be measured?	Person(s) Responsible		Date Completed	
Act	What needs refinement? When will practices be evaluated again?	Person(s) Responsible		Date Completed	

### **158.163 Earthquake and tornado emergency procedure system.**

The board of each local school district, and the governing body of each private and parochial school or school district, shall establish an earthquake and tornado emergency procedure system in every public or private school building in its jurisdiction having a capacity of fifty (50) or more students, or having more than one (1) classroom. The earthquake and tornado emergency procedure system shall include, but not be limited to, all of the following:

- (1) A school building disaster plan, ready for implementation at any time, for maintaining the safety and care of students and staffs. A drop procedure and safe area evacuation practice shall be held at least twice during each school year, with the first practice for a drop procedure and a safe area evacuation being held within the first thirty (30) instructional days of each school year and one (1) practice being held during the month of January;
- (2) A drop procedure. As used in this section, "drop procedure" means an activity by which each student and staff member takes cover under a table or desk, dropping to his or her knees, with the head protected by the arms, and the back to the windows;
- (3) A safe area. As used in this section, "safe area" means a designated space including an enclosed area with no windows, a basement or the lowest floor using the interior hallway or rooms, or taking shelter under sturdy furniture;
- (4) Protective measures to be taken before, during, and following an earthquake or tornado; and
- (5) A program to ensure that the students and the certificated and classified staff are aware of, and properly trained in, the earthquake and tornado emergency procedure system.

**Effective:** June 25, 2013

**History:** Amended 2013 Ky. Acts ch. 126, sec. 2, effective June 25, 2013; and ch. 133, sec. 2, effective June 25, 2013. -- Amended 2000 Ky. Acts ch. 433, sec. 1, effective July 14, 2000. -- Created 1992 Ky. Acts ch. 29, sec. 1, effective July 14, 1992.

**Legislative Research Commission Note (6/25/2013).** This statute was amended with identical text in 2013 Ky. Acts chs. 126 and 133, which were companion bills. These Acts have been codified together.

plan using this guide as a model. Using the outline, sample forms, and protocols provided in the district's updated guide, schools can create an emergency plan which includes a designated chain of command, specific roles for team members, and school specific procedures to implement in the event of an emergency.

Each school district will need to determine how best to conduct the training and implementation process in individual schools. For smaller districts, the district team may be able to assist on a school-by-school basis. Larger districts will need a more coordinated and systematic way to conduct training for school centered teams to better prepare them to adapt the district plan to their individual school needs. According to K.R.S. 158.162, each Principal shall discuss the emergency plan with all school staff prior to the first instructional day of each school year and shall document the time and date of any discussion.

**158.162 Mandatory adoption of emergency management response plan in each public school.**

- (1) As used in this section:
  - (a) "Emergency management response plan" or "emergency plan" means a written document to prevent, mitigate, prepare for, respond to, and recover from emergencies; and
  - (b) "First responders" means local fire, police, and emergency medical personnel.
- (2)
  - (a) Each local board of education shall require the school council or, if none exists, the principal in each public school building in its jurisdiction to adopt an emergency plan to include procedures to be followed in case of fire, severe weather, or earthquake, or if a building lockdown as defined in KRS 158.164 is required.
  - (b) Following adoption, the emergency plan, along with a diagram of the facility, shall be provided to appropriate first responders.
  - (c) The emergency plan shall be reviewed following the end of each school year by the school council, the principal, and first responders and shall be revised as needed.
  - (d) The principal shall discuss the emergency plan with all school staff prior to the first instructional day of each school year and shall document the time and date of any discussion.
  - (e) The emergency plan and diagram of the facility shall be excluded from the application of KRS 61.870 to 61.884.
- (3) Each local board of education shall require the school council or, if none exists, the principal in each public school building to:
  - (a) Establish primary and secondary evacuation routes for all rooms located within the school and shall post the routes in each room by any doorway used for evacuation;
  - (b) Identify the best available severe weather safe zones, in consultation with local and state safety officials and informed by guiding principles set forth by the National Weather Service and the Federal Emergency Management Agency, and post the location of safe zones in each room of the school;
  - (c) Develop practices for students to follow during an earthquake; and
  - (d) Develop and adhere to practices to control the access to each school building. Practices may include but not be limited to:
    1. Controlling outside access to exterior doors during the school day;
    2. Controlling the front entrance of the school electronically or with a greeter;
    3. Controlling access to individual classrooms. If a classroom is equipped with hardware that allows the door to be locked from the outside but opened from the inside, the door should remain locked during instructional time;

4. Requiring all visitors to report to the front office of the building, provide valid identification, and state the purpose of the visit; and
  5. Providing a visitor's badge to be visibly displayed on a visitor's outer garment.
- (4) Each local board of education shall require the principal in each public school building in its jurisdiction to conduct, at a minimum, emergency response drills to include one (1) severe weather drill, one (1) earthquake drill, and one (1) lockdown drill within the first thirty (30) instructional days of each school year and again during the month of January. Required fire drills shall be conducted according to administrative regulations promulgated by the Department of Housing, Buildings and Construction. Whenever possible, first responders shall be invited to observe emergency response drills.
- (5) No later than November 1 of each school year, a local district superintendent shall send verification to the Kentucky Department of Education that all schools within the district are in compliance with the requirements of this section.

**Effective:** June 24, 2015

**History:** Amended 2015 Ky. Acts ch. 38, sec. 1, effective June 24, 2015. -- Created 2013 Ky. Acts ch. 126, sec. 1, effective June 25, 2013; and ch. 133, sec. 1, effective June 25, 2013.

**Legislative Research Commission Note (6/25/2013).** This statute was created by 2013 Ky. Acts chs. 126 and 133, which were companion bills and are substantively identical. Where these Acts are not in conflict, they have been codified together. Where a conflict exists, Acts ch. 126 prevails under KRS 446.250 as the Act which passed the General Assembly last.

## **Communication and Practice**

The final step in the emergency response planning process is to communicate and practice the plan. As required in KRS158.162, all four drills must be completed within the first 30 days of school and again in January. In addition, according to the National Fire Protection Association, schools are required to conduct two fire drills within the first two weeks of school and one each subsequent month. The District Support Team holds the responsibility to assist each school in conducting awareness trainings and in practicing various elements of emergency protocols. While most schools are adept at practicing techniques such as fire drills and severe weather drills, most are not well rehearsed in planning for such events as a chemical release, threats to self or others, intruders and other possible emergencies.

This Guide represents an effort to bring together elements of an all-hazards approach to emergency management for natural, technological, climate and culture, infrastructure, non-structural, biological, physical well-being and man-made incidents.

## **Summary**

A **District Support Team**, in collaboration with community partners creates a district model emergency response plan. It is important to base the plan(s) upon this **template**, but tailored to local needs. The District coordinates training for **School-Centered Emergency Response Teams** to adapt the district guide for school-specific needs.

District and school-centered teams **communicate** and **practice** the plan with staff and community partners in an effort to better prepare for a response and recovery in the event of an emergency.

# **School Plan**

Kentucky Center for School Safety

# ***School Plan***

# Checklist for School Planning

Under the direction of the principal, each school is to complete the following according to its unique needs and circumstances.

- Have each team member become familiar with this Emergency Management Resource Guide
- Complete the following:
  - **Cover Page for School-Centered Plan**
  - **Staff Skills Inventory (for Emergency Operations Planning)**
  - **Emergency Response Team Assignments**
  - **Students / Staff Needing Special Assistance: Teacher Survey**
  - **Students / Staff Needing Special Assistance: Master List**
  - **Classroom and Building “Hazard Hunt”**
  - **Classroom and Building “Hazard Hunt”: Master List (Mitigation Plan)**
  - **Assembly Area Outdoors, for Standard Evacuation**
  - **Off-Site Evacuation Location: Walking Distance**
  - **Off-Site Evacuation Location: Requiring Transport**
  - **School Accountability and Release**
  - **Schedule for Emergency Operations Training**
  - **Drill Schedule and Log**
- Create an **Emergency Team “Toolbox”**
- Adopt **Visitor Screening and Access Control Policies** consistent with local board policy
- Adopt “age appropriate” **Daily Dismissal Procedures** consistent with board policy
- Review the **Emergency Response Protocols** (“Response” section); make necessary modifications for school-specific needs (using feedback from Staff Surveys and Emergency Team input, local or district phone numbers and titles, etc.)
- Review and update **Safe Weather Zones** for each room of building
- Review and update **Shelter in Place** plan for each room of building
- Prepare your school’s **Emergency Quick Reference Guide**
- Provide **Emergency Quick Reference** forms to all staff members
- Establish a schedule and procedures for orientation, training, and practicing the plan
- Submit the school’s Emergency Operations Plan to the superintendent or designee and share with local first responders
- Practice the plan as scheduled, update the plan at least yearly

# Creating the School Emergency Operations Plan

This section is designed to provide a practical step-by-step approach to forming an Emergency Operations Plan. It addresses issues from team formation through submission of the plan to the Superintendent's Office. The first step in creating the Emergency Operations Plan is forming the Emergency Response Team. As introduced earlier, the team should represent the diverse training and expertise of the school community.

After the team is formed, the next step is for each team member to review this manual in its entirety. Then using the forms provided in this chapter, create the Emergency Operations Plan. Next, the Emergency Response Team should conduct a presentation at a faculty/staff meeting to update the entire staff regarding Universal Emergency Procedures, Emergency Operations Protocols, Emergency Response Team assignments specific roles, etc. Finally, the team will submit a copy of the plan to the Superintendent's Office.

Using this guide (as adapted by your District Support Team) as a starting point, each school and school support building is to establish an Emergency Response Team and is to develop (or update) an Emergency Operations Plan to include:

- Clearly defined staff roles/responsibilities (Emergency Response Team, Incident Command System, etc.)
- Procedures for emergency evacuation, administering first aid, etc.
- Setting up a "Command Post"
- Establishing potential staging areas
- Student accounting and release procedures
- Assembly Areas
- Guidelines for communication with the media
- Establishing primary and back-up methods for communication (within school, with Central Office, and with parents and community)

Each Emergency Operations Plan shall be **updated yearly and submitted to the Superintendent's Office**, and shall reflect the actions required by all involved parties to minimize loss of life and injury to persons and property.

The **school principal** is responsible for supervising, monitoring, organizing the development and training staff on the school emergency operations plan. **K.R.S. 158.162 requires that this training take place prior to students beginning classes.**

# Forming the Emergency Response Team

The **school principal** is responsible for overseeing the formation of the Emergency Response Team and is the designated leader.

A school's Emergency Response Team should reflect the diversity of the school community and should capitalize on the unique training and expertise offered by staff in various positions in the school.

The purpose of the Emergency Response Team includes the following:

- Develop the school's Emergency Operations Plan based upon documented school-specific risks, assets, and needs. This plan should use an all-hazards approach and be aligned with the District Plan. Conduct or coordinate orientation training for staff and recommend additional training.
- Conduct or coordinate awareness programs for students.
- Evaluate the school's preparedness for implementing specific emergency response protocols based upon the given situation.
- Report progress to the school's site based council, parents, and superintendent.
- Assist with the completion of "After Action Review Report" (debriefs) following exercises and/or an event.

## Suggested Team Members

- Principal
- Counselor
- Nurse
- Head custodian or campus foreman
- Office secretary
- Vocational education teacher
- Chemistry teacher
- School security or law enforcement personnel
- School psychologist
- Social worker
- Special education teacher
- Transportation coordinator
- Cafeteria Manager Personnel with areas of expertise (i.e., CPR, first aid, etc.)
- Staff located in strategic positions in the building (i.e., near exits or fire extinguishers, on different floors, etc.)
- School Teams may also consider community representatives such as
  - Police, Fire, Emergency Medical
  - Social Service Agencies
  - Mental Health
  - Clergy
  - Parents
  - Local emergency response personnel

# Emergency Responsibilities

The following is an outline of roles and responsibilities for staff during an emergency. This does not include your specific team responsibility which will be outlined in the individual school plan. The Emergency Management Response Team has specifically assigned roles during an emergency and will access the District Support Team in accordance with your school plan.

## Personnel Guide

### Principal/Facility Director

The principal and/or designee shall serve as Incident Commander (in the vast majority of cases) and will be responsible for the overall direction of the emergency procedures at the school or support building site. Responsibilities include:

1. Take steps deemed necessary to ensure the safety of students, staff, and other individuals in the implementation of Emergency Management Response Protocols.
2. Determine whether to implement Universal Emergency Procedures (evacuation; reverse evacuation; shelter in place; severe weather/safe area; drop, cover and hold; lockdown).
3. Activate the Emergency Management Response Team.
4. Arrange for transfer of students, staff, and other individuals when safety is threatened by a disaster.
5. Work with emergency service personnel (depending on the incident, community agencies such as police or fire department may have jurisdiction for investigations, rescue procedures, etc.).
6. Maintain a line of communication with the Superintendent's Office and/or District Support Team.

### District Support Team

The District Support Team's role shall be to support the school when the need exceeds the resources of the school to handle a situation:

1. Provide guidance regarding questions which may arise.
2. Direct additional support personnel, including District Support Team members as needed.
3. Monitor the emergency situation and facilitate major decisions which need to be made.
4. Provide a district contact (Public Information Officer) for release of information to the media.
5. This should include planning of a prepared statement that will be released.

### TEACHERS

Teachers shall be responsible for the supervision of students and shall remain with students until directed otherwise. They shall:

1. Take steps deemed necessary to ensure the safety of students, staff, and other individuals in the implementation of Emergency Management Response Protocols.
2. Direct students in their charge according to established Universal Emergency Procedures.
3. Render first aid if necessary. Selected school staff should be trained and certified in first aid, Automated Electronic Device (AED) use and CPR.
4. Teachers must have their roll book with them.
5. Take roll when the class relocates in the designated assembly area.
6. Report missing students and staff to Student Accounting and Release (you may want to consider utilizing a colored card system to expedite this process).
7. Assist as directed by the principal/incident commander.

## **COUNSELORS, SOCIAL WORKERS, PSYCHOLOGISTS**

Counselors, social workers, psychologists shall be responsible for assisting the overall direction of the emergency procedures at the site. Responsibilities include:

1. Take steps deemed necessary to ensure the safety of students, staff, and other individuals in the implementation of Emergency Management Protocols.
2. Direct students in their charge according to established Universal Emergency Procedures.
3. Render first aid if necessary.
4. Assist in the transfer of students, staff and other individuals when their safety is threatened by a disaster.
5. Maintain a line of communication with the Emergency Management Response Team leader. This would be the principal in the school and the superintendent for the school system.
6. Assist as directed by the principal/incident commander.

## **SCHOOL NURSES**

1. Provide first aid or emergency treatment as needed.
2. Communicate first aid and emergency treatment needs to emergency service personnel.
3. Assist as directed by the principal/incident commander.

## **CUSTODIANS**

1. Survey and report damage to principal/incident commander.
2. Assist with implementing the Universal Emergency Procedures and Emergency Management Response Protocols as directed.
3. Control main shut-off valves for gas, water, and electricity and assure that no hazard results from broken or downed lines.
4. Assist in the conservation, use, and disbursement of supplies and equipment.
5. Assist as directed by the principal/incident commander.

## **SCHOOL SECRETARY**

1. Answer phones and assist in receiving and providing consistent information to callers.
2. Provide for the safety of essential school records and documents.
3. Assist as directed by the principal/incident commander.

## **FOOD SERVICE/CAFETERIA WORKERS**

1. Use, prepare, and serve food and water on a rationed basis whenever the feeding of students and staff becomes necessary during an emergency.
2. Assist as directed by the principal/incident commander.

## **BUS DRIVERS**

1. Supervise the care of students, if an emergency occurs while children are on the bus.
2. Transfer students to new location when directed by the dispatcher or authorized regulatory agency.
3. Follow procedures as directed by your transportation policy for emergency situations.
4. Assist as directed by the principal/incident commander.

# Suggested Steps for Team Formation

1. Principal communicates with all staff identifying specific needs, skills and training for assignment on the Emergency Response Team (see Staff Skills Inventory). Principal or designee creates list of interested staff, making sure all major areas of need are addressed, including:
  - Multilingual staff member
  - Physical/medical needs
  - Emotional/mental health needs
  - Students with special needs
  - Staff from all areas of the building (different floors, wings, out-buildings, etc.)
  - Staff with knowledge of transportation needs
  - Staff with knowledge of the building floor plan, locks, etc.
  - Staff with knowledge of community resources
2. A meeting is held with potential team members to discuss what will be expected for team membership.
3. Principal/facility director or designee follows-up with all staff to update on Team formation, and to fill in areas where deficits exist (NOTE: Although an individual may seem “perfect” for a role, no one should be required to have a primary position on an emergency team if he/ she does not feel capable of fulfilling his/her duties in time of need).
4. An initial meeting is held to formally establish the Emergency Response Team, and to begin the process of developing the school’s Emergency Operations Plan.
5. Conduct a formal presentation during a staff/faculty meeting at the beginning of each school year.
6. Hold regular team meetings throughout the school year to review protocols and ongoing issues as they arise (may include local, state or national issues that may affect the school).
7. Set dates to conduct orientation, review and updates of the plan.

## ICS / Emergency Operations Team Roles and Responsibilities

The principal, as Incident Commander (IC) is in charge. As appropriate, the IC activates those in the Incident Command System (ICS), who in turn, activate others needed to fulfill emergency response tasks.

Title	Role, Responsibility
<b>Incident Command: Principal</b>	Responsible for development of school’s plan and overall management of emergency situations; establish/manage Command Post; activate ICS; determine strategies to implement protocols and adapt as needed
<b>Safety Official: Security, Law Enforcement</b>	Monitor safety conditions of an emergency situation and develop measures for ensuring the safety of building occupants (students, staff, volunteers, responders); document activities
<b>Public Information Official: Media Liaison</b>	Develop relationship with local media reps.; prepare media releases; establish “media center” near Command Post; coordinate information with Incident Commander and District Support Team; document activities
<b>Liaison Official: Liaison to Outside Agencies</b>	Develop working knowledge of local/regional agencies; serve as the primary on-scene contact for outside agencies assigned to an incident; assist in accessing services when the need arises; document activities
<b>Planning/Intelligence: Situation Analysis</b>	Assist Incident Commander in the collection and evaluation of information about an incident as it develops (including site map and area map of related events); assist with ongoing planning efforts; maintain incident time log; document activities
<b>Operations: Student Accounting and Release</b>	Analyze school staffing to develop a Student Accounting and Release Plan (accounting from individual teachers to Student Accounting and Release to Command Post); implement plan in an emergency; document activities
<b>Operations: Facility and Environmental</b>	Monitor site utilities (electric, gas, water, HVAC) shut off only if danger exists or directed by Incident Commander; assist in securing facility); document activities
<b>Operations: First Aid, CPR, Medical</b>	Establish medical triage with staff trained in first aid, CPR; provide/oversee care given to the injured; distribute supplies (latex gloves, bandages, etc.); request additional supplies from Logistics; document activities
<b>Operations: Crisis Intervention and Response</b>	Provide and access psychological first aid services for those in need (working with “Operations: Medical”); access local/regional providers for ongoing crisis counseling for students, staff, parents; document activities
<b>Operations: Food, water, sanitation</b>	Coordinate the rationed distribution of food and water (prolonged emergencies); establish secondary toilet facilities in the event of water or plumbing failure; request needed supplies from Logistics; document activities
<b>Logistics: Communications</b>	Establish/oversee communications center and activities during an emergency (two-way radio, battery-powered radio, written updates, etc.); develop an automated notification system for after-hours communication; document activities
<b>Logistics: Supplies</b>	Responsible to establish and maintain “Emergency Team Toolbox” (fresh batteries, etc.); coordinate access to and distribution of supplies during an emergency; monitor inventory of supplies and equipment; document activities
<b>Administration and Finance: Documentation</b>	Responsible for overall documentation and record keeping activities; when possible, photograph or videotape damage to property; develop a system to monitor and track expenses and financial losses; secure all records

# Cover Page for School-Centered Plan

Each school is responsible for creating and updating its Emergency Operations Plan on a yearly basis. This cover page should accompany the school's completed plan according to the guidelines established by the District Support Team. The school principal needs to sign this cover prior to submitting the plan to the central office.

## Emergency Management Response Plan

# Staff Skills Inventory (for Emergency Operations Planning)

Staff: As part of the development of our Emergency Operations Plan, and in accordance with district policy, please complete the following survey and return to the administration office. The information provided will be used to help design and update our Emergency Operations Plan in order to be fully prepared for an emergency situation should one arise.

NAME: \_\_\_\_\_ ROOM \_\_\_\_\_

## I. Emergency Response:

Please check any of the following areas in which you have training or expertise:

- First aid                       Search and rescue                       Counseling/mental health
- CPR                       AED                       Hazardous materials                       Firefighting
- Emergency medical                       Media relations                       Incident debriefing

Explain or clarify items checked, if needed \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

## II. Special Considerations:

Please check and list special skills or resources you feel would be an asset in an emergency situation.

Explain items checked:

- Multilingual, list language(s) \_\_\_\_\_
- Experience with disabilities \_\_\_\_\_
- Ham radio or CB radio experience \_\_\_\_\_
- Knowledge of community resources \_\_\_\_\_
- Other knowledge or skills \_\_\_\_\_
- Other knowledge or skills \_\_\_\_\_

School Plan

# Emergency Response Team Assignments

In general, Incident Command System (ICS) or Emergency Response Team roles should be a logical, reasonable parallel to day-to-day work assignments. Complete the form below to reflect your school Emergency Response Team assignments (reference page 56).

Title	Name Location and Numbers	Alternate Name Location and Numbers
Incident Command: Principal		
Safety Official: Security, Law Enforcement		
Public Information Official: Media Liaison		
Liaison Official: Liaison to Outside Agencies		
Planning/Intelligence: Situation Analysis		
Operations: Student Accounting and Release		
Operations: Facility and Environmental		
Operations: First Aid, CPR, Medical		
Operations: Crisis Intervention and Response		
Operations: Food, water, sanitation		
Logistics: Communications		
Logistics: Supplies		
Administration and Finance: Documentation		

School Plan

# Classroom and Building “Hazard Hunt”

**ALL STAFF Instructions:** The Emergency Response Team is interested in identifying any special circumstances which exist in our school or near our campus which present unique problems or potential risk to persons or property. These may include materials used in classes, issues specific to your location in the building, situations which may impede evacuation from the building, community issues (factories, airport, water plant, rivers/streams), etc. Please describe any such potential hazards below, and actions requested to mitigate:

## Potential Hazard

## Action Requested to Mitigate the Hazard

School Plan

**SIGNATURE:** \_\_\_\_\_ **ROOM:** \_\_\_\_\_

# Classroom and Building “Hazard Hunt”

## MASTER LIST (Mitigation Plan)

Each Emergency Response Team is required to identify circumstances unique to its school/campus/ facility that present unique risks to persons or property. These may include materials used within the building, potentially troublesome evacuation routes, dangers due to geographic location, proximity to potentially hazardous buildings in the community, issues related to sharing a campus with another school, etc.

Using information from “Classroom and Building ‘Hazard Hunt’ forms”, as well as insights from Emergency Response Team members, list below any specific risks or potential hazards needing special consideration and plans to address them (copy form as needed):

Potential Hazard	Action Needed to Mitigate the Hazard	Person Responsible	Date Completed

School Plan

# Assembly Area Outdoors, for Standard Evacuation

Use the following worksheet to plan for evacuation from the building to an on-site or near-site Assembly Area (e.g., on-site football field). The Assembly Area should minimize exposure of students to dangers or hazards around the school.

1. Examine floor plans, site plans and maps for your school grounds and surrounding neighborhood. Determine primary and secondary exits for each room in the building. Consider factors such as: gas, sewer, power lines, chain link fences (electrical hazard), facilities containing hazardous materials, water towers, multiple story buildings (vulnerable to collapse), transformers, balconies (which may fall from buildings), etc.
2. Designate each of the following in the Assembly Area:

Command Post \_\_\_\_\_

Access for emergency vehicles \_\_\_\_\_

Student assembly areas (by grade level or team, etc.) \_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

First aid area \_\_\_\_\_

Psychological first aid area \_\_\_\_\_

Student release \_\_\_\_\_

Media area \_\_\_\_\_

3. Communicate Student Accounting and Release procedures to parents.

# Off-Site Evacuation Location: Walking Distance

In inclement weather, it may be necessary to move students to an Off-Site Location rather than using the typical Outdoor Assembly Area. Use the following worksheet to plan for evacuation from the building to an Off-Site Evacuation location within **walking distance** from the school. Coordinate your planning with Central Office, other schools, etc.

1. Examine maps and site plans for possible Alternate Building Location in the immediate vicinity of the school property.
2. Consider factors such as roadways, waterways, power lines, metal fences, utilities, etc., and select routes that minimize exposure to area hazards.
3. Coordinate planning with nearby schools, community centers, businesses, churches, etc. to establish relationships for Off-Site Evacuation Locations and secure MOUs.
4. Designate each of the following:

## Alternate Building Location

## Lead Contact / Phone

---

---

---

(Address)

---

---

---

## Secondary Location

## Lead Contact / Phone

---

---

---

(Address)

---

---

---

**USE SPACE BELOW** for any special planning needs, routes, alternate routes, or for coordinating your school's plan with other schools or buildings on the same campus.

---

---

---

---

---

# Off-Site Evacuation Location: Requiring Transport

Use the following worksheet to plan for evacuation from the building to an Off-Site Evacuation location **requiring transport** from the school. Coordinate your planning with Central Office, other schools, etc.

1. Contact Director of Transportation in Central Office to coordinate and plan for transporting students and staff to an Off-Site Evacuation Location. Examine local area maps for primary and secondary roadways to transport students and staff to an Off-Site Evacuation Location.
2. Consider factors such as roadways (for potential traffic “gridlock”), waterways, power lines, metal fences, utilities, etc., and select routes that minimize exposure to area hazards.
3. Coordinate planning with other schools, community centers, businesses, churches, etc. to establish a MOU for Off-Site Evacuation Locations (schools across town may serve as alternate site for each other).
4. Designate each of the following:

**Off-Site Evacuation Location**

**Lead Contact / Phone**

---

---

---

(Address)

---

---

---

**Secondary Location**

**Lead Contact / Phone**

---

---

---

(Address)

---

---

---

**USE SPACE BELOW** for any special planning needs or for coordinating your school’s plan with other schools or buildings on the same campus.

---

---

---

## Memorandum of Understanding Sheltering and Mass Care Facilities

This agreement is made and entered into between the \_\_\_\_\_ and \_\_\_\_\_ to establish shelter site locations and terms of use in the event of an evacuation of the students and staff of the \_\_\_\_\_.

The \_\_\_\_\_ will make every effort to notify \_\_\_\_\_ of evacuation possibilities with as much notice as possible. Contact information between the two parties shall be maintained in a separate appendix and is considered confidential information and is not subject to public disclosure.

\_\_\_\_\_ agrees to open their building located at \_\_\_\_\_ to provide shelter and assistance to students and staff evacuated during emergency situations when the students and staff have a need to be sheltered. \_\_\_\_\_ has a capacity to accommodate approximately \_\_\_\_\_ people.

\_\_\_\_\_ understands that their organization will be responsible for opening the building and developing procedures for making the building accessible, including rest rooms and an area with phone and internet connection (if available) for \_\_\_\_\_ administrative personnel. Furthermore, \_\_\_\_\_ will provide supervision for all students and staff during the time that the facility is used as an emergency shelter site.

The \_\_\_\_\_ agrees that it shall exercise reasonable care in the conduct of its activities in said facilities and further agrees to replace or reimburse \_\_\_\_\_ for any items, materials, equipment or supplies that may be used by the district in the conduct of its sheltering activities in said facilities.

The \_\_\_\_\_ will be responsible for replacing, restoring or repairing damage occasioned by the use of any building, facilities or equipment belonging to \_\_\_\_\_.

The \_\_\_\_\_ will reimburse \_\_\_\_\_ for any bona fide expenditure of personnel required to maintain the facility, including overtime costs, upon production of receipts or time sheets. \_\_\_\_\_ will not pay any operational or administrative fees to \_\_\_\_\_.

The \_\_\_\_\_ shall provide any and all releases of information to the press and media. Requests for interviews or information submitted to \_\_\_\_\_ shall be directed to the \_\_\_\_\_ Public Information Officer or the Superintendent of Schools.

The \_\_\_\_\_ will make every effort to recognize the hospitality of \_\_\_\_\_ in any press or media releases pertaining to the re-location and sheltering of students and staff.

Nothing in this MOU is intended to conflict with current laws or regulations of the United States of America, Commonwealth of Pennsylvania or local government. If a term of this agreement is inconsistent with such authority, then that term shall be invalid, but the remaining terms and conditions of this MOU shall remain in full force and effect.

This agreement shall become effective on \_\_\_\_\_ and may be modified upon the mutual written consent of the parties.

The terms of this agreement, as modified with the consent of both parties, shall be self renewable for a period of five (5) years from the end date of the agreement unless written termination is given by either party. Either party, upon sixty (60) days written notice to the other party, may terminate this agreement.

The terms of this agreement, as modified with the consent of both parties,  
AND NOW, this \_\_\_\_\_ day of \_\_\_\_\_ 20\_\_\_\_, the parties hereby  
acknowledge the foregoing as the terms and conditions of their understanding.

\_\_\_\_\_  
Superintendent of Schools,

\_\_\_\_\_  
Authorized Signature,

# Levels of Emergencies

It is essential to understand and be prepared for a range of situations from school-based events. The chart below illustrates different levels of emergencies, and the following page describes in greater detail the possible impact of community-level disasters on individual schools.

## School Level Emergencies

Situations in which the scope is limited to school settings and school-based personnel, and no assistance is needed (such as an allergic reaction and use of “Epi pen”)

## District Level Emergencies

These are events where support and involvement is required from school district personnel or members of the District Support Team. Events may include an unexpected death, suicide threats, water or power failure, trespasser, etc. While these events may require help from non-school employees, they do not reach the scope and gravity of community-level disasters needing community-wide support.

## Community Level Emergencies

These include large-scale events during which coordination of services from school, district and local community response agencies is warranted. Such events include tornado damage to buildings, flooding, fires or explosions, chemical spills requiring evacuation, death of multiple staff or students (as in a bus accident) and/or a hostage situation. In many of these situations the school’s role is to implement protocols until appropriate community agencies respond and assume responsibility (such as police, fire and rescue). However, schools must be prepared to rely on their own resources until help arrives. In addition, schools may be called upon to provide resources for community emergencies.

# Schedule for Emergency Operations Training

Each school should prepare a schedule of emergency operations training annually. You may also use the worksheet below to outline a schedule for training events, drills, etc.

Month	Training Event and Who is to be Trained	Person Responsible	Comments
July			
August			
September			
October			
November			
December			
January			
February			
March			
April			
May			
June			

School Plan

# Drill Schedule and Log

Special note: As of 2013, all four emergency response drills (fire, lockdown, severe weather and earthquake) must be conducted within the first 30 days of the new school year and must be conducted again in January (see Appendix D: Kentucky Department of Education Guidance For: Senate Bill 8/ House Bill 354 Emergency Management Planning For Schools and Districts).

Use the following worksheet to plan drills for your school. Submit a copy of the schedule with your school's plan, and use the original to document drills when they actually occur.

**Fire Drills:** Two fire drills in the first month of school, and one per month each following month.

Monthly Schedule	Date Conducted	Weather Conditions	Number of Occupants	Evacuation Time	Comments, Notes
1st:					
2nd:					
3rd:					
4th:					
5th:					
6th:					
7th:					
8th:					
9th:					
10th:					
11th:					
12th:					

**Earthquake Drills:**

Date Scheduled	Date Conducted	Number of Occupants	Response Time	Comments, Notes
1st:				
2nd (Jan):				

**Severe Weather Safe Area:**

Date Scheduled	Date Conducted	Number of Occupants	Response Time	Comments, Notes
1st:				
2nd (Jan):				

**Lockdown:**

Date Scheduled	Date Conducted	Number of Occupants	Response Time	Comments, Notes
1st:				
2nd (Jan):				

# Emergency Team “Toolbox”

Each school’s Emergency Response Team should consider developing a “toolbox” to have available for use during an emergency situation. Items in the toolbox should not be used for anything other than emergency preparedness training activities. A member of the Emergency Response Team should be assigned to keep the toolbox updated (change batteries, update phone numbers, etc.). The toolbox should be portable and readily accessible for use in an emergency.

- Copies of the all forms completed in the development of the school or facility Emergency Response Plan (Chain of Command, Students Needing Assistance, etc.)
- Map of building(s) with location of Exits, Phones, First Aid Kits, Assembly Areas
- Blueprints of school building(s), including utilities
- Record (video) inside and outside of the building and grounds
- Map of local streets with evacuation route (Off-Site Evacuation Location requiring Transport)
- Flash lights (recommend the type that does not require batteries)
- First aid kit and latex gloves (and other types for latex-sensitive persons)
- Faculty/staff roster (including emergency contacts)
- Student roster (including emergency contacts for parents)
- Safety Data Sheet (SDS)
- Two-way radios and/or cellular phones available
- Battery powered AM/FM radio and spare batteries (wind-up radios)
- Several legal pads and ink pens
- Grease boards and markers (or dry erase boards)
- White peel-off stickers and markers (for name tags use permanent markers)
- Local telephone directory
- Lists of the district personnel’s contact list
- Lists of other emergency phone numbers
- Other \_\_\_\_\_
- Other \_\_\_\_\_
- Other \_\_\_\_\_

# Classroom Response Kit

Each classroom should consider developing a “response kit” to have available for use during an emergency situation. Items in the kit should not be used for anything other than emergency preparedness training activities. The kit should be portable and readily accessible for use in an emergency.

- **Lists of other emergency phone numbers**
- **Faculty/staff roster (including emergency contacts)**
- **Student roster (list by period or time). Including emergency contacts for parents as well as work and cell numbers.**
- **List of students with special needs**
- **Student bus assignments and bus drivers name**
- **Cell Phone Tree**
- **Two-way radios and/or cellular phones available**
- **Flash lights (friction)/AM/FM radio combo (wind-up radios)**
- **Assembly Areas (Universal Procedure)**
- **Map of building(s) with location of Fire Exit and Floor Plan**
- **Local telephone directory**
- **First aid kit (including band-aids, antiseptic ointment & gauze) and latex gloves (and other types for latex-sensitive persons)**
- **Water bottle/small Dixie cups**
- **Beef jerky & hard candy**
- **Green & Red signs**
- **White laminate sheet**
- **White peel-off stickers and markers (for name tags use permanent markers)**
- **Dry erase markers**
- **Post-its**
- **Duct tape**
- **Scissors**
- **Notepad/ink pen/pencils**
- **Permanent markers**
- **Q Tips**
- **Other \_\_\_\_\_**

# **Communications**

Kentucky Center for School Safety

***Communication***

# Communication During an Emergency

Communication is a critical part of emergency management. School staff and students must be told what is happening and what to do. Parents of students and families of staff members must be informed about the situation, including the status of their child or family member. Parents should be made aware of how information will be disseminated to them during a school emergency.\* Timely contact with law enforcement and other emergency services is necessary for effective response. School Board members must be kept informed and updated. Information must be transmitted to the Central Office and to other affected schools. And finally, the media must be informed and kept updated.

## After an Emergency

The principal will need to notify staff of an event or emergency and keep them informed as additional information becomes available and as plans for management of the situation evolve.

## Automated Notification System

An automated notification system is an excellent way to notify staff of an emergency event when they are not at school. Using a phone or email automated notification system is an excellent method of accurately and quickly communicating with groups of responders and other relevant agencies in a crisis. Prior to the emergency setup distribution lists (phone and email) listing staff, Emergency Management Response Team and local responders. A carefully crafted statement, specifying what is and is not yet known, and what steps may need to be taken should be drafted before the system is activated.

## The Morning Faculty Meeting

An early, brief faculty meeting provides the opportunity to give accurate, updated information about an emergency event/situation itself and to review with staff procedures for the day, including the availability of intervention resources.

## The End-of-Day-One Faculty/Staff Meeting

A brief end-of-day-one meeting provides the opportunity to review day one of an emergency, to update information, and plan for day two. Misinformation or rumors can be addressed **before** staff members go home or into the community where they are likely to be asked about the situation.

*\*Parent communication should be an ongoing process.*

# Dealing with Rumors

Establishing reliable communication networks is critical for dealing effectively with a potentially detrimental phenomenon often present in emergencies: Rumors. People are going to talk about an emergency. When accurate information is not available, rumors begin and without facts people will speculate. Rumors create a negative perception of the school's ability to manage an emergency. The most effective strategy for combating rumors is to provide facts as soon as possible.

- All information should go through the school district's Public Information Officer.
- The Public Information Officer will provide factual, written information that is permitted to be shared with the public. Employees should not deviate from the information provided by the Public Information Officer.
- Identify and notify internal groups including administrators, teachers, custodians, secretaries, teaching assistants, cafeteria workers, bus drivers, etc. These are ancillary sources of information and are likely to be contacted in their neighborhoods, at grocery stores, etc. It is critical that they have accurate information because what they know (or are speculating about) will be passed on. A faculty/staff meeting should be held before staff members go home so that what is (and is not) known can be clearly communicated.
- Clerical staff who answer the telephone at the school and at the Central Office must know which information can be shared and which information cannot be shared. They must be kept informed of inaccurate information which is circulating so they can help correct misinformation. Designating a few persons to answer calls helps control the circulating of misinformation. Have a scripted preapproved statement for faxing, e-mailing and telephone communication.
- The media can also help control rumors; ask them to provide frequent updates to the public, particularly providing accurate information where rumors need to be dispelled.
- After an immediate emergency has passed, public meetings may be helpful. It provides an opportunity for people to ask questions and to receive accurate information. A follow-up public meeting may also be helpful in restoring the community's confidence in the school's ability to manage emergencies and to provide a safe environment.

# Technology

Technology can be a very effective tool for communication during an emergency. Common tools include the following:

1. **Telephones** - It is recommended that schools should have at least one unpublished number. Check with the phone company to see if there are unused lines in the school's control panel which could be activated if needed. Use standard jacks and mark them clearly so emergency personnel can find them. There are automated phone systems for contacting "sub-populations" within your school instantly. They can be very effective in getting a quick standardized message to staff and/ or parents.
2. **Intercom systems** - Ideally, systems should include teacher-initiated communications with the office and use a handset rather than a wall-mounted speaker. Instructions for use of the intercom system should be posted near the controls in the office area.
3. **Bullhorns and megaphones** - Battery-powered megaphones can be effective for communication in an emergency when other types of technology are not available and should be part of the school's emergency toolbox. Following procedures governing the storage and use will help ensure availability.
4. **Two-way radios** - Two-way radios provide a reliable method of communication between rooms and buildings at a single site. All staff should be trained to operate the two-way radio. It is suggested that one be available for the principal, assistant principal, school resource officer, custodians, guidance counselors, secretary and for a representative from each grade level. A designated teacher from each grade level should be given one during a crisis. It is recommended that the school have an extra one available in the office to be used as needed during a crisis situation. Remember that some electronic devices can trigger bombs. A designated frequency on two-way radios should be shared with Emergency Responders to act as a redundant communication mode.
5. **Computers** - Existing computers may be used for communication both within the school and to other sites. E-mail may be a useful tool for updating information for staff, Central Office, other schools in an affected area, and possibly for other agencies. School websites can inform the public of the current situation at school and other pertinent information.
6. **Fax machines** - Possible uses include an off-campus accident where lists of students and staff members are involved, their locations, and needed telephone numbers can be quickly and accurately communicated. Medical information, release forms, and authorizations can be faxed and returned in emergencies.
7. **Cellular telephones** - These phones may be the only tool working when electric service is out; they are useful to staff who may be en route to or from a site. Be aware however, that cell phones are often the first form of communication to fail in a large scale emergency (this is due to overloading networks). They can also trigger bombs. Various apps are available to help locate an individual or allow for group communication for specific incidents.
8. **"Panic buttons"** - "Panic buttons" may be connected directly to the police or other emergency services. In some communities, there is an immediate response; in others, the police or fire departments call the school to confirm the emergency.
9. **Alarm systems** - Bells or buzzers which may be sounded in different ways to signal different types of emergencies - for example, fire, severe weather, or special alert (with instructions to follow). When possible verbal commands should be given in plain language (do not rely upon code words or phrases). This process simply decreases the chance for error or misunderstanding.

# Strategies with Parents and Community

An important aspect of managing emergencies is dealing effectively with parent reactions and community agencies. Communication with parents and the community is best begun before an emergency occurs. Some useful strategies include the following:

1. Inform parents about the school's emergency plan, its objectives, and the need for it; such information can be included in a school newsletter, local public access media, websites or other informational materials prepared for parents.
  - a. Lists of personnel on emergency teams and their specific roles in a crisis should not be detailed and released to parent or listed on community information. Many of these lists include private information such as cell phone numbers.
  - b. The details of the emergency plan should remain confidential; care should be given not to publish evacuation routes, floor plans or other information that could be used by individuals seeking targets for predatory actions.
2. Develop a school climate that nurtures relationships with parents so that they trust and feel comfortable calling school personnel to notify of a possible emergency.
3. Develop materials that may be needed, including:
  - a. Drafts of letters to parents informing them of what happened.
  - b. Information regarding possible reactions to a variety of safety situations for use by parents as they talk with their children.
  - c. Steps the school and school district are taking to handle the situation.
4. Develop a list of community resources which may be helpful to parents or helpful to the school in the event of an emergency.
5. Identify parents who are willing to volunteer in case of an emergency and include them in preparation efforts and training.

# Sharing Information with Parents

In the event of an emergency, parents have very specific information needs. First, parents want to know their children are safe; then, parents want to know the details of the emergency situation, to know how it is being handled, and to know that the children will be safe in the future. The first reactions are likely to involve *fear*. Upon learning of an incident at the school, parents are likely to descend upon the school in search of their child or to telephone, frantically seeking information. Establishing a system for responding quickly to parent needs for information is an important part of pre-planning. *Anger* is another common reaction of parents, particularly in the case of senseless acts of violence. In the event of an emergency or disaster:

1. Tell parents exactly what is known to have happened. Do not embellish or speculate.
2. Implement the plan to manage phone calls, traffic control and meet with parents who arrive at school.
3. If deemed necessary, schedule and attend an open question-and-answer meeting for parents as soon after the incident as possible. The meeting will provide an opportunity for school officials to listen and respond to parent concerns (which are helpful in combating rumors and other misinformation) and to work on restoring parental trust in the school.
4. In the event of an incident which involved damage or destruction, an open house for parents and other members of the community to see the school restored to its “normal” state helps everyone get beyond the emergency.
5. During a school-level emergency event the school may utilize (if available) an automated telecommunication device that can be programmed to deliver critical messages in a short period of time. Such messages can be directed to the residences of the students and their parents or guardians attending this particular school.
6. During a school-level emergency, it may be necessary to move students to an alternative site. Parents will need to be notified as to where they need to meet their children (reunification plan). **This area should be designated as part of the overall plan.**

# Communicating with the Media

The following suggestions will promote clear communications with the media:

1. Identify a single information source (typically this will be your designated Public Information Officer).
2. Direct media representatives to one area (on or off campus) where briefings can take place (this should be done in advance so there is a known media staging area). This should not necessarily take place at the site of the event unless the school is showing how normalcy has been restored.
3. Instruct all employees to refer all information and questions to the Media Liaison or Public Information Officer.
4. If the emergency is a death, consult with the deceased student/staff member's family before making a statement.
5. Insist that reporters respect the privacy rights of students and staff.
6. Advise students of the school's student media policy.
7. The school should decide what to say, issue a statement, and answer questions within the limits of confidentiality.
8. Take initiative with news media and let them know what is or is not known about the situation.
9. Emphasize school's/district's good record.
10. Speak to reporters in plain English - not in "educationese."
11. If there is involvement with a criminal case, work in conjunction with law enforcement spokesperson and the local board attorney.
12. Don't try to "kill" a story; don't say, "no comment;" don't speculate; don't try to blame anyone for anything.
13. When communicating, maintain a unified position and message; keep messages concise, clear, and consistent.
14. Contact District Support Team to regularly update.
15. Delay releasing information until facts are verified and the school's position is clear; prepare statements about the situation in advance to read (avoid ad-libbing).
16. Assign sufficient staff to handle phones and keep a log of calls and personal contacts.
17. Express appreciation to all persons who helped handle the emergency.

# Sample Statements to the Media

## Example 1: Bus Accident

Our third grade students were on a field trip when their school bus was involved in an accident on Interstate-75 (I-75). Emergency medical teams have arrived and are transporting students to (NAME) community hospital. Our assistant principal is at the scene and our superintendent is at the hospital. We have established a hotline for parents (or, staff members are calling parents of students involved in the accident.) The hotline number is (NUMBER). Our Emergency Management Response Team is implementing our emergency protocol for bus accidents, including providing support to students and staff.

*Note: Important points made are: preparedness of the school; coordination of efforts with community agencies, access to information for parents; responsible, immediate action taken by school representatives (including those in positions of authority); and support provided for students at the school*

## Example 2: Fight/Death of Student (off campus, after hours)

A fight involving two eleventh-grade students occurred a block from campus at 7:00 PM last night. The incident resulted in the fatal shooting of one of our students. An ongoing investigation is being conducted, but no more is known at this time.”

Our school’s Emergency Management Response Team went into action immediately following the incident and the following actions have been taken: 1) Our Emergency Team met last night and planned a staff meeting before the school day. 2) We notified staff of the meeting. 3) Crisis counseling for students is being provided by Central Office and community resources; 4) A review of our school weapons policy is underway and school security is on alert for potential related violence.

*Note: Important points are: Even though the incident occurred off campus, after hours, the school still has a responsibility to act; the incident is coupled with a re-statement of the district weapons policy; the school demonstrates it is able to handle emergencies by convening an Emergency Management Response Team meeting, by drawing on community resources, and by providing (or accessing) crisis counseling for the students.*

# Sample Letter to Parents

Dear Parents,

As you may or may not be aware, our school (or district) has recently experienced (specify event, whether death, fire, etc.) which has deeply affected us. Let me briefly review the facts (give brief description of incident and known facts).

We have implemented our school's Emergency Operations Plan in an effort to provide an appropriate response to the situation. This plan is also designed to provide assistance to our students and their families when deemed necessary. Students and staff will react in different ways to emergencies of this nature, so it will be important to have support available to assist both staff and students in need. Counselors are available in the school setting to assist students as they express their feelings related to (the specific event). We have included a reference sheet to help you recognize possible reactions you may observe in your child. If you feel your child is in need of special assistance or is having a great deal of difficulty coping with (the loss, disaster, etc.), please do not hesitate to call.

While it is important to deal with grief, loss, anger and fear reactions, we believe it is essential to resume as normal a routine as possible regarding school activities. The following modifications in our school's regular schedule will be in effect during (specify dates, times and places), and after that time all regular schedules and routines will resume. (Specify needed information such as memorial services, possible changes in classroom locations, alterations school operating hours, etc.).

Thank you for your support of our school system as we work together to cope with (specify event). Please observe your child closely over the next several days and weeks to watch for signs of distress which may indicate a need for additional support and guidance. Please feel free to call if you have any concerns or questions regarding your child, or the steps being taken by the school to address this (loss, tragedy, etc.).

Sincerely,

(Principal Name)  
(Phone)

# **Emergency Procedures**

Kentucky Center for School Safety

# ***Emergency Operations***

# Emergency Operations Checklist

Although each situation is different, the following is intended as a general listing of actions to consider when faced with an emergency or critical incident.

- Take a deep breath, don't panic, verify information
- Activate school's Emergency Response Team, Incident Command System (ICS); activate and assign duties as needed:
  - Safety Official (overall safety conditions of campus)
  - Public Information Official (media relations, contact)
  - Liaison Official (coordinate with outside agencies)
  - Planning/Intelligence (incident time log, evaluate information)
  - Operations (student accounting and release, facilities, medical, crisis intervention and response, food and water)
  - Logistics (communications and supplies)
  - Administration/Finance (documentation, record keeping)
- Determine whether to call 911, whether to implement Universal Emergency Procedures or school specific Emergency Response Protocols
- Notify and request assistance from the District Support Team to:
  - Assist with planning for a response and implementing protocols
  - Provide recovery support to students
- Establish a Command Post for communication and incident management
- Bring "emergency toolbox" to Command Post (inside or outside)
- Hold emergency all-staff meeting (before and/or after school day) to:
  - Advise staff of the known facts and provide written statement
  - Support their concerns and emotions
  - Provide classroom assistance if needed
  - Outline schedule for the day; modify day's schedule if needed
  - Identify resources available to teachers and students
- Establish contact with parents/family members of affected students to offer support, to determine assistance needed, and (in the event of a death) for information regarding visitation/funeral arrangements
- Prepare formal statement or announcement to students, parents, and media; provide statement to secretaries, staff, etc.
- Expand span of Incident Command System as needed, deactivate ICS when activities are completed
- Review and implement "Recovery" activities
- Document actions taken, secure records as legal documents

# Universal Emergency Procedures

Universal Emergency Procedures are a set of standard, clear directives that may be implemented across a variety of emergency situations. When an emergency begins, the principal, as Incident Commander, will decide which Universal Emergency Procedures to implement, based on the situation.

There are six basic procedures which can be utilized in responding to various emergencies:

- 1 – Evacuation                      3 – Severe Weather Safe Area                      5 – Lockdown  
 2 – Reverse Evacuation                      4 – Shelter in Place                      6 – Drop, Cover and Hold

<p><b>1 EVACUATION</b> (For use when conditions outside are safer than inside)</p> <p><b>When announcement is made or alarm sounded:</b></p> <ul style="list-style-type: none"> <li>• Take the closest and safest way out as posted (use secondary route if primary route is blocked or hazardous)</li> <li>• Take class roster for student accounting</li> <li>• Assist those needing special assistance</li> <li>• Do not stop for student/staff belongings</li> <li>• Go to designated Assembly Area</li> <li>• Check for injuries</li> <li>• Take attendance; report according to Student Accounting and Release procedures</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>	<p><b>4 SHELTER IN PLACE</b> (For use in chemical release scenarios)</p> <p><b>When the announcement is made:</b></p> <ul style="list-style-type: none"> <li>• Turn off HVAC System</li> <li>• Students are to be cleared from the halls immediately and to report to nearest available classroom or other designated location</li> <li>• Assist those needing special assistance</li> <li>• Close and tape all windows and doors and seal the gap between bottom of the door and the floor (chemical release)</li> <li>• Take attendance; report according to Student Accounting and Release procedures</li> <li>• Do not allow anyone to leave the classroom</li> <li>• Stay away from all doors and windows</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>
<p><b>2 REVERSE EVACUATION</b> (For use when conditions inside are safer than outside)</p> <p><b>When the announcement is made:</b></p> <ul style="list-style-type: none"> <li>• Move students and staff inside as quickly as possible</li> <li>• Assist those needing special assistance</li> <li>• Report to classroom</li> <li>• Check for injuries</li> <li>• Take attendance; report according to Student Accounting and Release procedures</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>	<p><b>5 LOCKDOWN</b> (For use to protect building occupants from potential dangers in the building)</p> <p><b>Note: school-specific lockdown procedures should be developed by school officials and local law enforcement officials. Please see “Considerations When Developing a School Lockdown Policy” for additional information. See <a href="http://www.kycss.org/lockdown.php">www.kycss.org/lockdown.php</a></b></p> <p><b>When the announcement is made:</b></p> <ul style="list-style-type: none"> <li>• Students are to be cleared from the halls immediately and to report to nearest available classroom</li> <li>• Assist those needing special assistance</li> <li>• Close and lock all windows and doors and do not leave for any reason</li> <li>• Stay away from all doors and windows and move students to interior walls and drop</li> <li>• BE QUIET!</li> <li>• Wait for an official to open the door</li> </ul>
<p><b>3 SEVERE WEATHER SAFE AREA</b> (For use in severe weather emergencies)</p> <p><b>When announcement is made or alarm sounded:</b></p> <ul style="list-style-type: none"> <li>• Take the closest, safest route to shelter in designated safe areas (use secondary route if primary route is blocked or dangerous)</li> <li>• Occupants of portable classrooms shall move to the main building to designated safe areas</li> <li>• Take class roster for student accounting</li> <li>• Take attendance; report according to Student Accounting and Release procedures</li> <li>• Assist those needing special assistance</li> <li>• Do not stop for student/staff belongings</li> <li>• Close all doors</li> <li>• Remain in safe area until the “all clear” is given</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>	<p><b>6 DROP, COVER AND HOLD</b> (For use in earthquake or other imminent danger to building or immediate surroundings)</p> <p><b>When the command “Drop” is made:</b></p> <ul style="list-style-type: none"> <li>• DROP – to the floor, take cover under a nearby desk or table and face away from the windows</li> <li>• COVER - your eyes by leaning your face against your arms</li> <li>• HOLD - on to the table or desk legs, and maintain present location/position</li> <li>• Assist those needing special assistance</li> <li>• BE QUIET!</li> <li>• Wait for further instructions</li> </ul>

# Accidents at School

## Staff actions:

- Report accident to principal, office; call 911 if warranted
- Provide for immediate medical attention (first aid) including performing necessary life-sustaining measures (CPR, AED, etc.), until trained emergency medical services arrives
- For relatively minor events, have students taken to office or school clinic for assistance

## Principal or Designee actions:

- Provide appropriate medical attention, call 911 if needed
- Complete appropriate documentation
- Contact parents, guardians as appropriate to seek appropriate follow-up services if needed
- Document actions and complete incident reports

## Other suggested preventive/supportive actions:

- Post in the office or school clinic the names of building staff who have completed first aid or CPR training
- List names of those trained in use of AED on the box
- Post general procedures in the clinic explaining when parents are to be notified of minor mishaps
- Provide staff with a one-page list of emergency procedures in case of an accident or injury on the playground or in the building (e.g., District First Aid Manual, Bloodborne Pathogen Program)
- Provide in-service training in basic first aid for staff (utilizing the school nurse or other trained health professional)
- Provide a standard location for placement of classroom emergency procedures
- Provide each teacher with information about students in his/her classroom having special medical or physical needs; such conditions might include allergies, fainting, seizures, or diabetes; include procedures that the teacher may follow in these specific emergencies

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Aircraft Crash Emergency

## Crash **INTO** School Building

### Staff Actions:

- Notify principal
- Move students away from immediate vicinity of crash

### Principal / Designee:

- Call 911
- Notify District Support Team, central office
- Determine whether to implement evacuation procedures
- Students and staff should be assembled in an area as far from the crash scene as possible and should be up-hill and up-wind from the crash
- Provide for immediate medical attention (first aid) including performing necessary life-sustaining measures (CPR, AED, etc.), until trained emergency medical services arrives
- Account for all building occupants and determine extent of injuries
- Do not re-enter building until given “all clear” from person in charge
- Document actions and complete incident reports

## Crash **NEAR** School Building (but no damage to building)

### Staff Actions:

- Notify principal
- Move students away from immediate vicinity of crash

### Principal / Designee:

- Call 911
- Initiate **Shelter in Place** plan if warranted
- All students and staff should remain in the buildings; any students or staff outside should initiate reverse evacuation or go to designated area until further instructions are received
- No evacuations should occur unless subsequent explosions or fire endanger the building
- Document actions and complete incident reports

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Allergic Reaction

## Possible Symptoms:

- Skin irritation or itching, rash, hives, nasal itching or sneezing, localized swelling, swollen tongue
- Restlessness, sweating, fright, shock
- Shortness of breath, vomiting, cough, hoarseness

## Staff First Actions:

- If imminent risk, call 911
- Notify principal
- Send for immediate help (Operations: First aid, CPR, medical) and medication kit (for known allergies)
- Assist in getting “Epi pen” (Epinephrine) for individuals who carry them, and prescription medications (kept in office)
- Keep student/employee comfortable
- Move only for safety reasons
- Move other students away from immediate vicinity

## Principal / Designee:

- Call 911, depending on circumstances
- Attempt to identify the allergen and route of entry; approximate dosage and time
- Notify parent or guardian
- Administer medication, by order of a doctor, if appropriate; apply ice pack to affected area, keep victim warm or take other actions as indicated
- Observe for respiratory difficulty
- Document actions and complete incident reports

## Preventive/Supportive Actions:

- Emergency health card should be completed by parents for each child, and should be easily accessible by school personnel (i.e. log in Infinite Campus)
- Bus drivers should have emergency sheets for all known acute reactors
- Encourage employees with special health considerations to alert principal and staff

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Assault

**When student(s) or staff has been assaulted use the following guidelines:**

**Staff observing the incident:**

- Report to school principal the type and number of injuries and if assailant is still in area
- Give a good description of the assailant (clothing, height, etc.)
- Give location of the assault
- If assailant has left the building on foot give direction of travel
- If assailant leaves in a vehicle, give description of vehicle, license number and direction of travel
- Administer first aid, and get medical attention if needed

**Principal / Designee:**

- If threat still persists determine whether to initiate Lockdown
- Call 911 if warranted, or notify law enforcement (required by K.R.S.)
- Give type and number of injuries
- Advise if assailant is still in building or on the property
- Give description of assailant
- Give direction of travel and type of vehicle
- Notify District Support Team, Central Office as appropriate
- Document actions and complete incident reports

**Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Bloodborne Pathogens / Infectious Substances

## Principal, Team, Staff:

- Exercise appropriate caution when informing others about an individual with any infectious disease (follow HIPPA guidelines)
- Make certain that those individuals who contact the child on a regular basis know, and insist they maintain confidentiality. Those individuals would include:
  1. Principal
  2. School nurse
  3. Teachers
  4. School secretary
- Unless directed by a physician otherwise, allow the individual unrestricted school attendance and activities. If a child does not have control of their bodily functions and body fluids, or may bite others, their environment should be more restricted
- Document actions and complete incident reports

## Tips for Teachers:

- Most bloodborne pathogens are not spread through casual contact. It is only spread through sexual contact or through blood or other body fluids
- Daily activities (including sports and classroom functions) should not be altered unless contact resulting in cuts or injury is common or expected
- If a student injures themselves and is bleeding take the following actions:
  1. Don appropriate personal protective equipment
  2. Bandage the wound securely
  3. Isolate any contaminated items for appropriate disposal

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Bomb Threat / Terroristic Threatening

## (Threat Report on Next Page)

**In the event of a Threat to the school or facility:**

### **Staff Actions:**

#### **Receiving a Threat:**

##### **Phone Threat**

All personnel who answer telephone calls from outside sources shall be provided a “Threat Report Checklist”, to be placed within easy reach of their telephone, on which is printed information to ask for and information to listen for in the event a caller makes a bomb threat.

- If possible, signal other staff members to listen and notify the principal and police
- Copy any information displayed in the Caller ID – photograph if able
- Write down the exact wording of the threat
- Keep the caller on the line for as long as possible, use the Threat Checklist to gather as much information as possible
- Record the call if the telephone or other available equipment allows
- Fill out the Threat Checklist immediately
- Be available for interviews with the principal, SRO and other public safety personnel

##### **Verbal Threat**

- If the perpetrator leaves, note which direction they fled
- Notify the principal, SRO and others as appropriate
- Transcribe the threat exactly as it was communicated
- Note the description of the person(s) who made the threat:
  - Name (if known)
  - Gender
  - Race
  - Type/Color of clothing
  - Approximate height and weight (body type)
  - Hair and eye color
  - Voice (loud, deep, accent)
  - Other distinguishing features

**Written Threat**

- If found within a document, handle the document as little as possible. If found on a portion/ component of the structure, etc. “Do not touch”
- Notify the principal and others as appropriate
- Rewrite the threat exactly as is on another sheet of paper noting the following:
  - Date/time/location that the document was found
  - Any situations or conditions surrounding the discovery/delivery
  - Full names of any person(s) who saw the threat
  - Secure the original item: Do not alter the item in any way
  - If small/removable, place in a clear plastic bag
  - If large/stationary, secure the location
- Photograph the document and or object that the threat is written on

**Electronic (Social Media) Threat**

- Leave the message open on the computer
- Notify the principal and others as appropriate
- Print, photograph or copy the message and subject line, note the date and time

**Principal / Designee:**

\*Reference Threat Management Procedure for specific response

- Assess the threat in consultation with local law enforcement / EMS personnel\*
- Conduct building security scan
- Determine if January evacuation is appropriate (assure evacuation route and off site location is safe utilizing police / EMS personnel
- If no evacuation, decide upon appropriate response\*
- Determine appropriate communication procedures\*
- Document actions and complete incident reports

**Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

## Post Bomb Threat Report (Completed by person receiving the call)

Date \_\_\_\_\_ Time of call \_\_\_\_\_

What telephone number was the bomb threat received on? \_\_\_\_\_

Exact language/wording used by the caller \_\_\_\_\_

### Record the following information as provided:

What time is it set for? \_\_\_\_\_ Where is it? \_\_\_\_\_

What does it look like? \_\_\_\_\_

Why are you doing this? \_\_\_\_\_

What is your name? \_\_\_\_\_

### Additional Information (check/fill in):

Gender:    \_\_ Male        \_\_ Female    Describe \_\_\_\_\_

Age:        \_\_ Adult        \_\_ Child    Describe/estimate age \_\_\_\_\_

Speech:    \_\_ Normal        \_\_ Excited   Describe \_\_\_\_\_

Speech:    \_\_ Slow         \_\_ Fast      Describe \_\_\_\_\_

Did the caller have an accent? Describe: \_\_\_\_\_

Did you recognize the caller's voice? Describe: \_\_\_\_\_

Background noises:  \_\_ music        \_\_ traffic    \_\_ machine    \_\_ voices/talking

                  \_\_ airplanes    \_\_ typing     \_\_ children    \_\_ TV/radio

                  \_\_ other \_\_\_\_\_

Other Notes: \_\_\_\_\_

### Person receiving call:

Name \_\_\_\_\_ Home Phone \_\_\_\_\_

Address \_\_\_\_\_

### Notification:

School Principal \_\_\_\_\_ Time \_\_\_\_\_

Police \_\_\_\_\_ Time \_\_\_\_\_

# Bus Accident

Each school should maintain a bus folder (hard copy and/or digital) for each bus serving the school. This folder should contain rosters, including an emergency telephone number for each student assigned to ride the bus. The teacher in charge of a special activity trip should prepare trip bus folders, one copy of the student manifest should be placed in the trip folder and a second copy should accompany the teacher on the trip (this procedure can be housed digitally allowing for immediate access and accountability using the district’s intranet).

Bus drivers should have designated procedures for handling emergency situations. The following protocol is intended to outline steps to be taken by school personnel should an accident occur.

## In the event of a Bus Accident:

### Staff at the Scene:

- Call 911, if warranted
- Notify principal, bus garage
- School staff at the scene of a bus accident will help to implement basic first aid until emergency medical services and/or law enforcement arrives and takes charge of the emergency
- School staff at the scene of a school bus accident will move all uninjured students to a location that is a safe distance from the accident
- The names of all injured students will be provided to the principal

### Principal / Designee:

- Notify District Support Team
- Ascertain the names of any injured students and the nearest location of any medical treatment facility and document
- Parents/guardians of all students on the bus will be notified as quickly as accurate information is available
- Designated school staff representative will proceed to any medical treatment facility to which an injured student has been taken to assist parents/guardians and to provide support to students, as appropriate
- Document actions and complete incident reports

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Chemical Material Spill

Chemical accidents may originate inside or outside building. Examples include: toxic leaks or spills caused by tank, truck, or railroad accident; water treatment/waste treatment plants; industry or laboratory spills, etc.

## Accidents originating **OUTSIDE** the building:

### Staff Actions:

- Notify principal, team
- Move students away from immediate vicinity of danger (if outside, reverse evacuation)
- Observe wind direction by observing flags or leaves and move students appropriately

### Principal / Designee:

- Initiate Shelter in Place, shut off HVAC units
- Call 911, notify District Support Team, Central Office
- Do not leave the building unless instructed to do so; if you must evacuate building or grounds, take care to avoid fumes

## Accidents originating **INSIDE** the building:

### Staff Actions:

- Notify principal
- Move students away from immediate vicinity of danger

### Principal / Designee:

- Check the Material Safety Data Sheet (MSDS) to determine the urgency of situation
- Call 911 if warranted, notify District Support Team, Central Office
- Initiate evacuation plan; avoid the area where the chemical accident occurred and any fumes which are present
- Follow standard student assembly, accounting and reporting procedures; modify assembly area if needed to be upwind, uphill, and upstream from the location of the spill
- Wait for instructions from the emergency responders
- Do not take unsafe actions such as returning to the building before it has been declared safe
- Refrain from lighting matches, candles, or other fires which could cause an explosion or ignite volatile fumes
- Document actions and complete incident reports

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Cyber / Electronic Threat

## Staff Actions:

- Report issue to principal / law enforcement (this includes report of sexting)
- Preserve message, image or media on the original electronic device
- Secure the electronic device

**\*Remember you may not search electronic devices without owner permission or a court order**

## Principal / Designee:

- Evaluate level of cyber threat with school technology coordinator and law enforcement
  - **Level One:** Not highly inflammatory. Generally, incident can be solved in-house (most cyberbullying, etc.)
  - **Level Two:** A student or staff member is in danger of harm (highly emotional issue, repeat offender, sexting, hit list, threat of bodily harm, etc.)
- Depending on severity, call 911, District Support Team and law enforcement
- Conduct investigation and determine all those involved
- Notify parents/guardians of involved students
- Document actions and complete incident reports

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Death or Serious Illness

## (Off campus school event)

### In the event of a reported death or serious illness outside the school setting:

#### Staff Actions:

- Call 911
- Notify principal

#### Principal / Designee:

- Protect the privacy of the family; the school neither gives nor confirms information to the media or others without consent
- Notify District Support Team, Central Office
- Notify teachers prior to school by using an automated notification system (phone and/or email) or during school prior to notification of students
- Schedule a faculty meeting as soon as possible to: share the details that are known, review procedure for the day, and discuss the notification of students, availability of support services and the referral process for students needing assistance
- Contact the family or visit the home to offer help, condolence and support
- Allow students to meet in guidance office or other appropriate place; students should be encouraged to report any other students who might need assistance
- It may be necessary to designate multiple areas for crisis team/grief counselors to meet with affected students
- Notify the bus driver of the students who will not ride home on their bus
- Students who are extremely upset should have parents contacted to determine appropriate support needed after leaving school
- Offer assistance to parents of impacted students
- If deemed necessary by building principal, at the end of the day a faculty meeting may be called to disseminate additional information
- Document actions and complete incident reports

#### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Earthquake

Because earthquakes can strike without warning, the immediate need is to protect lives by taking the best available cover. All other actions must wait until the tremors subside. If persons are protected from falling objects, the rolling motion of the earth may be frightening but may not be dangerous.

## **If inside:**

- Initiate Drop, Cover and Hold
- If no cover is available, get against inside doorway or crouch against inside wall and cover head; stay away from outside walls, windows or other expanses of glass, potential falling objects
- Leave doors open to minimize jamming if the building shifts
- Do not attempt to run through building or outside due to risk of falling objects
- After initial shock, prepare for possible aftershock, then initiate evacuation and standard student accounting (avoid all hazards, i.e., electrical wires, broken glass, etc.)

## **If outside:**

- Move quickly away from building and overhead electrical wires
- Initiate Drop, Cover and Hold
- Initiate accountability procedures
- Do not attempt to enter building until authorized to do so
- Do not light fires or touch fallen wires
- Be alert for instructions from principal

## **Assembly Areas:**

- Earthquake safe areas will be away from the building and overhead power lines
- Keep everyone away from underground gas and sewer lines
- In the event of aftershocks, students shall be encouraged to remain calm and stay sitting close to the ground
- Administer emergency first aid as needed
- Do not re-enter building until given “all clear” from Incident Commander
- Document actions and complete incident reports

## **Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Fire

By law, schools practice fire drills on a monthly basis. In case of an actual fire, implement the practiced evacuation procedures and the following steps:

## In the event of a fire:

- Sound alarm
- Call 911, superintendent, District Support Team
- Implement evacuation procedures to outside Assembly Area
- Implement plan for any students needing special assistance
- Follow standard student accounting procedures
- Some schools use a **card notification system**. The universal colors of a “green card” and a “red card” are used. A “green card” denotes all students are present and all is well and a “red card” signifies a problem
- Do not re-enter building until being given permission to re-enter
- Determine if arrangements need to be made for transportation to alternative location
- Document actions and complete incident reports

*See drill schedule and log sample on page 69*

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Gas Leak

All school personnel, including cafeteria managers and custodians, report any suspected gas leak to the principal immediately.

## Staff Actions:

- Notify principal
- Move students from immediate vicinity of danger

## Principal / Designee:

- Call 911, District Support Team
- If the gas leak is internal, implement evacuation procedures. Refrain from lighting matches or candles, and do not turn off/on electrical switches/equipment including cell phones (remember, electrical sparks can trigger an explosion)
- Notify gas company
- Determine whether to move to alternate location
- If extended stay outdoors in inclement weather, contact transportation to provide bus to transport students to partner school or shelter students on buses
- Do not re-enter building until being given permission to do so by emergency personnel
- If the gas leak is external, all students and staff should remain in the buildings; any students or staff outside should initiate Reverse Evacuation or follow Shelter in Place (seal off windows and doors) until further instructions are received
- Document actions and complete incident reports

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Hostage Situation / Kidnapping

## Staff Actions:

- Notify principal
- Keep all students in their classrooms until further notice

## Principal / Designee:

- Initiate Lockdown
- Call 911, superintendent, District Support Team
- Notify all students outside their classrooms (including those outside the building) to report to the nearest safe area
- Under no circumstances should the students be evacuated from the building without approval and/or assistance
- If the hostage taker can be contained in one section of the building, students should be moved from exposed areas to a safer part of the building
- Document actions and complete incident reports

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Infectious Diseases

## Principal / Designee, Staff:

- Exercise appropriate caution and discretion when informing others about an individual with an infectious disease
- “An educational agency or institution may disclose personally identifiable information from an education record to appropriate parties, including parents of an eligible student, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals.” (FERPA)
- Notify appropriate individuals who are in contact with the child on a regular basis, and insist they maintain confidentiality. Those individuals would include:
  1. Principal
  2. School nurse
  3. Teachers / Aides
  4. School secretary
  5. Counselors
- Consult with school nurse, central office and/or health department on potential for outbreak
- Instruct custodial staff to disinfect all effected surfaces
- Determine whether child stays in school or if school closing is appropriate
- Document actions and complete incident reports

## Preventative Measures:

- Encourage students, parents, and staff to take everyday preventive actions to stop the spread of germs (CDC, <http://www.cdc.gov/> )
- Encourage students and staff to stay home when sick
- Encourage respiratory etiquette among students and staff through education and the provision of supplies
- Encourage hand hygiene among students and staff through education, scheduled time for hand washing, and the provision of supplies
- Encourage students and staff to keep their hands away from their nose, mouth, and eyes
- Encourage routine surface cleaning through education, policy, and the provision of supplies

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Missing Person

## Staff Actions

- Notify the principal with description of missing person and description of suspect if known
- Move other children (if present) away from area

## Principal / Designee:

- Call 911
- Notify District Support Team, central office
- Contact the family of the missing person to establish a communication plan
- Assemble the appropriate Emergency Response Team members to manage the crisis
- If the incident occurs during the school day, classroom routine should be maintained
- Conduct immediate search of school building and grounds
- Provide a picture and obtain a full description of the missing person (including clothing) to assist the police
- In cases of kidnapping/abduction, obtain a description of the suspect from witnesses
- When the person is found, contact the appropriate parties as needed
- Prepare an outline of the situation for staff; give factual information, as appropriate, to allow them to respond to students' questions
- Prepare an appropriate notice (preferably in writing) for parents/guardians
- If appropriate, arrange for counseling assistance for students
- Call emergency staff meeting if necessary
- Document actions and complete incident reports

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_

# Poisoning

## Immediate Actions:

- Call 911
- Call the Poison Control Center Hotline 1-800-222-1222
- Administer first aid directed by Poison Control Center
- Notify principal
- Utilize building personnel with knowledge of poisonous materials, first aid training, etc. using Safety Data Sheets (SDS)
- Seek additional medical attention as indicated
- School official to notify parents/guardians
- In the event of a staff member who has been poisoned, school official should notify spouse or emergency contact
- Document actions and complete incident reports

## Preventive Measures:

- Keep poisonous materials in a locked and secure location
- Post the Poison Control Center emergency number in the front office, school clinic, etc.
- Post the names of building personnel who have special paramedic, first aid training, or other special lifesaving or life-sustaining training
- Provide staff with information on possible poisonous materials in the building
- Make sure that Safety Data Sheets are present

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Rape / Sexual Abuse

When a school is notified that a rape or other sexual abuse may have occurred, the Emergency Response Team, the District’s Support Team and school personnel must protect the identity and right to privacy of the alleged victim and the alleged perpetrator. News of the incident should be contained as much as possible. The services provided to the victim and her/his family must be kept confidential and should be coordinated with outside providers, such as a rape crisis center, children’s advocacy center, or hospital emergency room.

**Rape / Sexual Abuse becomes a crisis to be managed by school staff only when one or more of the following conditions exist:**

- A rape or other sexual abuse occurs on campus
- A member of the alleged victim’s family requests intervention
- The alleged victim’s friends request intervention
- Rumors and myths of the alleged incident are widespread and damaging
- Students witness police action or emergency services response

**When one or more of the above conditions exists, the following should be implemented:**

- Confidentiality should be maintained during the investigation (by all staff members)
- Ensure the short-term physical safety of the student
- The school nurse, counselor or other staff shall administer first aid and secure immediate medical treatment
- Notify appropriate law enforcement, and/or rape crisis center
- Designate the school counselor or staff member closest to the alleged victim to review the types of support she or he may need
- Determine which peers close to the victim may need support
- Take action to control rumors
- Store all records related to rape or other sexual abuse incident and services provided in a confidential file not available to any and/or all staff

**Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Suicide

## (5 page section)

### INTRODUCTION

Hinting, writing, or talking about suicide is a call for help and must be taken seriously. When confronted with a situation in which life-threatening behavior is present, immediate mobilization of all appropriate resources is paramount. Under such conditions, commitment to student confidentiality is superseded by the need to initiate lifesaving intervention(s).

The following classifications offer three (3) levels of suicide risk with students:

- 1) **Suicidal Threat or Ideation**
- 2) **Suicide Attempt at School**
- 3) **Suicide Completed**

### Do's and Don'ts Regarding Suicidal Ideation

- **DO LISTEN** to what the student is saying and take the suicidal threat seriously.
  - **DO GET HELP** by contacting a school counselor, psychologist, principal or other appropriate resource. Never attempt to handle a potential suicide by yourself.
  - **DO OBSERVE** the student's nonverbal behavior. Facial expressions, body language, and other overt signs are often more telling than what the student says.
  - **DO ASK** whether the student is thinking about suicide. If the indication is "yes," ask how she/he plans to do it and what steps have already been taken.
  - **DO ASSURE** the person that you care and you will find help that will keep her/him safe.
  - **DO STAY** with the student, and if possible, assist with transfer to appropriate mental health professional. The student has placed trust in you, so you must help transfer that trust to another person.
- 
- **DON'T LEAVE** the student alone for even a minute.
  - **DON'T ACT** shocked, don't allow yourself to be sworn to secrecy, or don't ignore the threat.
  - **DON'T LET** the student convince you that the crisis is over. Often the most dangerous time is precisely when the person seems to be feeling better. Sometimes the student may appear happy and relaxed simply because they have come to a decision (even if that decision is suicide).
  - **DON'T TAKE** too much upon yourself. Your responsibility to the student in this situation is limited to listening, being supportive and getting her/him to a trained mental health professional/therapist (immediately.)

# Suicidal Threat or Ideation

**In the event a staff member has reason to believe that a student is a suicide risk or has made a suicidal threat they should:**

## **Staff Actions:**

- Keep the student under continuous adult supervision
- Notify the principal, counselor, social worker or school psychologist, but do not leave the student alone

## **Principal / Designee, Counselor:**

After meeting with the student, as advised by the principal, the counselor or other mental health professional shall:

- Immediately contact the student’s parents/guardians and make appropriate recommendations for treatment
- Recommend that parents make an immediate contact with a mental health professional. If requested, provide the parents/guardians the names and phone numbers of mental health resources (agencies, therapists, hospitals, etc.) If the parent/guardian is unavailable or uncooperative regarding emergency services, contact the Community-Based Services to intervene on behalf of the student (potentially a medical neglect referral)
- It is recommended that a follow-up call to the family be made expressing the school’s concern and willingness to cooperate with the appropriate medical agencies as requested
- In collaboration with a specific treatment plan formulated for the student by the treating agency, meet with the student’s teachers to alert them of the identified risk(s) and to request that they assist in monitoring the student’s behavior
- Document all actions taken on behalf of the student (i.e., referrals, phone contacts, follow-up activities, etc.)

## **Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Suicide Attempt at School

## In the event of an actual suicide attempt:

### Staff Actions:

- Notify principal
- Ensure the short-term physical safety of the student

### Principal / Designee, Counselor:

- Call 911, District Support Team, Central Office
- School nurse, counselor or other staff shall administer first aid until emergency responders arrive
- The student will be kept under constant observation at all times
- The school principal, (or other designated professional) will communicate with the appropriate school personnel, parents/guardians and counselors to establish an immediate plan of action
- Accompany child to medical facility
- Notify parents of transport
- Follow-up should be made by counselor with parent/guardian to determine appropriate follow-up services needed
- Document all actions taken on behalf of the student (i.e., referrals, phone contacts, follow-up activities, etc.)

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Suicide Completed

## (off campus)

School staff should exercise caution when discussing an “apparent suicide” with students. Often there will be ongoing investigations by the police department, and parents or other relatives may be reluctant to accept the terrible nature of the death. When the cause of death is clear, it is best to request permission from the parents to talk about the suicide with other students.

If news of death by suicide is received, the principal or designee shall initiate efforts to address emotional reactions within the school community.

### **Staff Actions:**

- Notify principal
- Avoid spreading rumors
- Watch for warning signs in other students (such as “copycat” actions)

### **Principal / Designee, Counselor:**

- Once the death has been confirmed notify District Support Team
- Identify any family member(s) that may be at school and provide crisis counseling
- Do not release the names of other family members who attend the school
- If the media requests information, refrain from discussing any details relating to the deceased student; school staff may wish to describe assistance being offered on behalf of students
- Consider calling a faculty meeting to disclose all relevant facts
- Have school counselor or other appropriate professional describe how students may react to the news and suggest how teachers can address questions and reactions
- Allow time for school staff to ask questions and express their feelings; some staff may be particularly upset and may request and/or require support
- Outline procedures for the remainder of the school day
- Provide support meetings for school personnel if the need exists; refer employees to an Employee Assistance Program (EAP) as indicated
- Compile a list of other students deemed to be at risk; consider immediate counseling opportunities as part of the school and district’s commitment to responsible follow-up and recovery
- Allow students to leave class during the day to receive support offered from school personnel, the District Support Team or other designated volunteer resources or community faith-based persons who have received this specific training
- If the school based Emergency Response Team (ERT) and the District Support Team (DST) deem it appropriate, consider avoiding any large group meetings or assembly of students (in an effort to maintain order and control)

- Consider an after school faculty meeting; the following points may be covered:
  1. Debrief the events of the day
  2. Provide emotional support for all staff
  3. Review the characteristics of high-risk students and compile an additional list based on staff observations of student reactions during the day
  4. Announce the plans made by the family for services
  5. To the extent possible, make efforts to ensure that regular routine is followed
  6. In general, recognize a tragic loss of life, without emphasizing the means of death

**Activities to be avoided include:**

- Special memorial services within the school building
- Flying the school flag at half staff
- Special yearbook notices
- Large student assemblies
- Memorials such as trees/stones, etc.

Suicide should not be ignored nor should it be romanticized or sensationalized; it should be dealt with thoughtfully, carefully and compassionately

**Additional steps for our school/facility (if any):**

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Active Threat Response

(Including hostage situation, intruder, weapons)

## Staff Actions:

- Initiate lockdown (if able)
- Call 911 (if able)
- Notify principal of situation
- Follow lockdown protocol
- Wait for further instruction

## Principal / Designee:

- Initiate Lockdown (if not already completed)
- Call 911 (if not already completed)
- Notify Superintendent and District Support Team
- Follow lockdown procedures until clearance given by local law enforcement
- Document actions and complete incident reports

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Assessment of Threat

## (8 page section)

### Introduction

These materials offer a starting point when addressing possible school-violence, but are not intended to be a script or to be implemented in rote fashion. At all times it is expected that school personnel will use professional judgment in assessing and addressing potential threats to safety. It is essential to use “warning signs” and other materials responsibly. The processes described herein offer an opportunity to help maintain school safety by identifying and referring individuals who need help. They **are not** intended to encourage school-wide student profiling, labeling or stigmatizing of individuals.

### In the event of an IMMEDIATE danger:

- Call Law Enforcement or 911
- Take immediate action to secure or isolate the individual posing a threat, and prevent access to potential weapons (if known)
- Take immediate action to move others from harm’s way (in immediate vicinity of event)
- Initiate Lockdown procedures (determine who initiates the lockdown, keep this consistent across the school district)

### If “Warning Signs” are observed, but there is not an imminent risk:

- Have individual or team observing “Warning Signs” complete a Threat Assessment Referral Form (if not completed already)
- Activate appropriate members of (School Based) Emergency Response Team
- Interview the individual of concern (consider using a trained counselor)
- Notify 911, if necessary
- Notify Superintendent, District Support Team and District Pupil Personnel
- Contact parents or legal guardian and obtain a release of information to exchange information between agencies
- Review Warning Signs, Risk Factors, Precipitating Events, Stabilizing Factors by completing Threat Assessment Worksheet
- Make recommendations to parents to seek appropriate mental health services
- Determine level of risk using Risk for Harm Categories (page 107)
- Develop an action plan according to the determined level of risk
- Document referrals, actions taken, follow-up plans, etc.
- Develop a plan to monitor student’s response to actions taken, a “return to school plan” and to review new information as it becomes available

### Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_

# Threat Assessment Referral Form

If you become concerned that an individual may pose a risk for harming himself or others complete this form by stating your concern, checking the Warning Signs of which you are aware, and explaining items checked. Turn it in directly to the school's principal or designee. In an *Imminent* safety threat, notify principal immediately and take immediate action to secure or isolate the individual, and move other students from harm's way.

Individual under concern \_\_\_\_\_ Date of birth \_\_\_\_\_

Person(s) completing this form \_\_\_\_\_ Room/phone \_\_\_\_\_

School \_\_\_\_\_ Date of referral \_\_\_\_\_

**I. Reason for referral** (explain your concerns) \_\_\_\_\_

---

---

**II. Imminent Warning Signs** (when an individual displays Imminent Warning Signs; take immediate action to maintain safety, mobilize law enforcement and appropriate school personnel)

- |  |   |
|--|---|
| <input type="checkbox"/> 1. Possession and/or use of firearm or other weapon<br><input type="checkbox"/> 2. Suicide threats or statements<br><input type="checkbox"/> 3. Detailed threats of lethal violence (time, place, method, hit list) | <input type="checkbox"/> 4. Severe rage for seemingly minor reasons<br><input type="checkbox"/> 5. Severe destruction of property<br><input type="checkbox"/> 6. Serious physical fighting with peers, family, others |
|--|---|

**III. Early Warning Signs** (mark items, then elaborate below)

- |  |  |
|--|--|
| <input type="checkbox"/> 7. Social withdrawal or lacking interpersonal skills<br><input type="checkbox"/> 8. Excessive feelings of isolation and being alone<br><input type="checkbox"/> 9. Excessive feelings of rejection<br><input type="checkbox"/> 10. Being a victim of violence, teasing, bullying<br><input type="checkbox"/> 11. Feelings of being picked on<br><input type="checkbox"/> 12. Low school interest, poor academic performance<br><input type="checkbox"/> 13. Expressions of violence in writings and drawings<br><input type="checkbox"/> 14. Uncontrolled anger<br><input type="checkbox"/> 15. Patterns of impulsive and chronic, hitting and bullying<br><input type="checkbox"/> 16. History of discipline problems<br><input type="checkbox"/> 17. History of violent, aggressive and antisocial behavior across settings (i.e., fighting, fire setting, cruelty to animals, vandalism, etc., especially begun before age 12) | <input type="checkbox"/> 18. Intolerance for differences, prejudicial attitudes<br><input type="checkbox"/> 19. Drug and alcohol use<br><input type="checkbox"/> 20. Affiliation with gangs<br><input type="checkbox"/> 21. Inappropriate access, possession, use of firearms<br><input type="checkbox"/> 22. Threats of violence (direct or indirect)<br><input type="checkbox"/> 23. Talking about weapons or bombs<br><input type="checkbox"/> 24. Ruminating over perceived injustices<br><input type="checkbox"/> 25. Feelings of being persecuted<br><input type="checkbox"/> 28. Obsession with particular person<br><input type="checkbox"/> 29. Depression<br><input type="checkbox"/> 30. Marked change in appearance<br><input type="checkbox"/> 31. Other _____ |
|--|--|

**IV. Explain checked items; describe known Precipitating Events** (use back if needed)

---

---

**V. Turn in this form** and any materials you may have which may be necessary to conduct a preliminary risk assessment (i.e., writings, notes, printed e-mail or internet materials, books, drawings, confiscated items, etc.). This information should be routed to the principal or his/her designee.

**FOR OFFICE AND EMERGENCY RESPONSE TEAM USE:**

Date Received: \_\_\_\_\_ School Case Manager assigned to follow referral: \_\_\_\_\_

# Threat Assessment Worksheet (2 pages)

*(To be completed by the School Based Case Worker and staff members who have daily contact with the student of concern)*

Coupled with the Referral Form (which addresses Warning Signs), this outline addresses Risk Factors, Precipitating Events, and Stabilizing Factors. The worksheet is designed to provide a concise way to organize known concerns when conducting a preliminary risk assessment and to list relevant school and agency involvement.

Individual under concern \_\_\_\_\_ Date of birth \_\_\_\_\_

Person(s) completing this form \_\_\_\_\_

Parent/legal guardian name \_\_\_\_\_ Phone \_\_\_\_\_

School \_\_\_\_\_ Date of referral \_\_\_\_\_

**I. School and Agency Involvement (past or present)** *To determine if safety concerns have been noted by others. List name, contact information and date of involvement if known:*

School Law Enforcement or Discipline Referrals \_\_\_\_\_

Special Education, 504, or Under Consideration \_\_\_\_\_

School-Based Mental Health or Social Services \_\_\_\_\_

Family Resource and Youth Services Center \_\_\_\_\_

Community Social Services \_\_\_\_\_

Police, Juvenile Court, Probation Services \_\_\_\_\_

Community Mental Health Services \_\_\_\_\_

Current or prior institutionalization or foster care placement \_\_\_\_\_

Other \_\_\_\_\_

Comments/concerns expressed by any of the above \_\_\_\_\_

**II. Risk Factors** *(indicate if Observed, Documented, or Suspected; circle O, D, S, respectively)*

In possession or has access to weapons (O, D, S) \_\_\_\_\_

History of impulsive violent or other antisocial behavior (O, D, S) \_\_\_\_\_

Child abuse/neglect (O, D, S) \_\_\_\_\_

Isolation or social withdrawal (O, D, S) \_\_\_\_\_

Domestic violence or other family conflict (O, D, S) \_\_\_\_\_

Depression, mental illness, medical ailment (O, D, S) (list current medications) \_\_\_\_\_

Substance abuse or drug trafficking (O, D, S) \_\_\_\_\_

Fire setting (O, D, S) \_\_\_\_\_

Emergency Operations

## Threat Assessment Worksheet — (Page 2)

**II. Risk Factors** *(continued) (indicate Observed, Documented, or Suspected, O, D, S, respectively)*

Bed wetting (O, D, S) \_\_\_\_\_

Cruelty to animals (O, D, S) \_\_\_\_\_

Preoccupation with real or fictional violence (O, D, S) \_\_\_\_\_

Repeated exposure to violence (desensitization) (O, D, S) \_\_\_\_\_

Gang involvement or affiliation (O, D, S) \_\_\_\_\_

Other \_\_\_\_\_

**III. Precipitating Events** *(recent triggers which may influence violence)*

Recent public humiliation/embarrassment (whether instigated by adult or peer) \_\_\_\_\_

Boyfriend/girlfriend relationship difficulties \_\_\_\_\_

Death, loss or other traumatic event \_\_\_\_\_

Highly publicized violent act (such as a school shooting) \_\_\_\_\_

Family fight or conflict \_\_\_\_\_

Recent victim of teasing, bullying or abuse \_\_\_\_\_

Other \_\_\_\_\_

**IV. Stabilizing Factors** *(factors which may minimize or mitigate likelihood or level of violence)*

Effective parental involvement \_\_\_\_\_

Involved with mental health; list provider or agency (if known) \_\_\_\_\_

Social support networks (church, school, social organizations) \_\_\_\_\_

Close alliance with a supportive adult (counselor, mentor, teacher, minister, etc.) \_\_\_\_\_

Positive, constructive peer group \_\_\_\_\_

Appropriate outlets for anger or other strong feelings \_\_\_\_\_

Positive focus on the future or appropriate future events \_\_\_\_\_

Other \_\_\_\_\_

**V. Category of Risk** *(Determine a Risk for Harm (RFH) Category based on available information)*

**Imminent - High - Moderate - Minor - Low/No** (date and time of determination \_\_\_\_\_)

**NOTE:** RFH Categories represent a distinct moment in time and may change from hour to hour, and day to day. Following an initial assessment, it is essential to monitor on-going status, to reassess level of risk according to new information, and to document significant changes.

# Risk (or Threat) Assessment Concepts

- I. **Warning Signs:** A sign or indicator that causes concern for safety.
  - A. **Imminent Warning Sign:** A sign which indicates that an individual is very close to behaving in a way that is potentially dangerous to self or others. Imminent Warning Signs call for *immediate* action by school authorities and law enforcement.
  - B. **Early Warning Signs:** Certain behavioral and emotional signs that, when viewed in a context, may signal a troubled individual. Early Warning Signs call for a referral to a school's Threat Assessment Team for assessment.
- II. **Risk Factors:** Historical or background conditions which may influence the potential for violence. These factors may include family history of violence, prior antisocial behavior, mental health background, and various social factors.
- III. **Precipitating Events:** Recent events or “triggers” which may increase potential for violence. These factors may include recent family conflict, rejection from a significant peer, serious conflict with a teacher, etc.
- IV. **Stabilizing Factors:** Support systems or networks in place for an individual which may *decrease* the likelihood for violence. These factors may include effective parental relationships, positive peer groups, strong relationship with a teacher, counselor or therapist, etc.
- V. **Threat Assessment:** The process of reviewing Warning Signs, Risk Factors, Precipitating Events, and Stabilizing Factors when referring a student of concern to a mental health professional for further assessment. This information is forwarded to the mental health professional in an effort to assist in identifying the threat.

# Risk For Harm Categories

Risk For Harm Categories provide a way for schools to determine and assign a level of risk based on a review of Warning Signs, Risk Factors, Precipitating Events, and Stabilizing Factors. **Based on level of risk**, the Emergency Response Team develops action plans to maintain safety and to help an individual gain access to needed services or interventions. The descriptors following each Category **are not an exhaustive list**, but are provided as a frame of reference.

## Category 1: Imminent Risk for Harm

An individual is, or is very close to, behaving in a way that is potentially dangerous to self or others.

### Examples include:

- Detailed threats of lethal violence
- Suicide threats
- Possession and/or use of firearms or other weapons
- Hit list
- Serious physical fighting, etc.

*Most individuals identified under this category will qualify for immediate hospitalization or arrest.*

### Responses may include:

- Immediate action to secure individual
- Facility lock down
- Security response
- Immediate referral to professional mental health provider
- Parent notification
- Background or records check
- “Return to school plans,” and/or ongoing case management

## Category 2: High Risk for Harm

An individual has displayed significant Early Warning Signs, has significant existing Risk Factors and/or Precipitating Events, and has few Stabilizing Factors. May not qualify for hospitalization or arrest at present, but requires referrals for needed services and active case management.

### Responses may include:

- Immediate action to secure individual
- Security response
- Parent notification
- Psychological consult/evaluation
- Background check

### **Category 3: Moderate Risk for Harm**

An individual has displayed some Early Warning Signs and may have existing Risk Factors or recent Precipitating Events, but also may have some Stabilizing Factors. There may be evidence of internal emotional distress (depression, social withdrawal, etc.) or of intentional infliction of distress on others (bullying, intimidation, seeking to cause fear, etc.).

**Responses may include:**

- Security response
- Parent notification
- Psychological consult/evaluation
- Background or records check
- Ongoing case management

### **Category 4: Minor Risk for Harm**

An individual has displayed minor Early Warning Signs, but assessment reveals little history of serious Risk Factors or dangerous behavior. Stabilizing Factors appear to be reasonably well established. There may be evidence of the unintentional infliction of distress on others (insensitive remarks, “teasing” taken too far, etc.).

**Responses may include:**

- Review of school records
- Parent notification
- Psychological consult
- Security response

### **Category 5: Low / No Risk for Harm**

Upon assessment it appears there is insufficient evidence for any risk for harm. Situations under this category can include misunderstandings, poor decision making, false accusations from peers (seeking to get other peers in trouble), etc.

**Responses may include:**

- Investigation of the situation
- Notification and involvement of others as needed

# Brief Interview Outline for Individual Under Concern

When interviewing an individual about safety concerns, one method is to ask questions which move from general introduction, to fact finding, to recognition of concerns, to assessing support networks, to developing an outline for next steps. **The following questions are not** intended to be a scripted interview, but provide a sample structure for the kinds of questions which may need to be asked. Individuals using this outline are encouraged to use their professional judgment and experience to expand these questions as needed. Note, in general it is good to avoid “yes or no” questions.

1. “Seems like you’ve been having a hard time lately, what’s going on?” *(to establish rapport and trust and to open dialog in a non-threatening way)*
2. “What is your understanding of why you have been asked to come to the office?” *(to review factual events)*
3. “What is your understanding of why school staff are concerned?” *(to determine if student is aware of effect behavior has on others)*
4. “What has been going on recently with you at school?” *(to look into possible precipitating events such as peer conflict, student/teacher interactions, failing grades, etc.; follow appropriate leads)*
5. “How are things going with your family?” *(to look into events such as recent moves, divorce, deaths or losses, conflict)*
6. “What else is going on with you?” *(to look into events outside of school such as community unrest, threats, police involvement, medical issues, etc.)*
7. “Who do you have to talk to or assist you with this situation?” *(to determine what supports or stabilizing factors may be available or in place such as mental health professionals, peer groups, family supports, church groups, etc.)*
8. “Given (whatever is going on), what are you planning to do?” or, “What are you thinking about doing?” *(follow-up on appropriate leads, including the level of detail in stated plans, ability to carry out plans, etc.)* **(NOTE: If there is an IMMINENT RISK take immediate action to maintain safety by contacting school security and/or 911).**
9. Close with a statement that describes short term next steps (i.e., “I’ll need to contact your parents to talk about...”, I will also need to speak with the principal and the assistant principals for possible further action(s) and we will need to devise a plan for next steps). Try to determine student’s mood prior to his/her departure, and alert others if necessary.

# Threat of Harm (Including Active Shooter)

These materials offer a starting point when addressing possible school-violence, but are not intended to be a script or to be implemented in rote fashion. At all times it is expected that school personnel will use professional judgment in assessing and addressing potential threats to safety. It is essential to use “warning signs” and other materials responsibly.

## Staff action:

- Initiate lockdown procedures / barricade door if possible
- If not in an area that can be secured, run out of the building and as far as you can to a safe location
- If lockdown and running away aren’t possible, attempt to disrupt or incapacitate the person causing harm (this is a last resort)

## Principal / Designee:

- Call 911, superintendent, District Support Team
- Attempt to determine:
  - Location of the threat and number of persons involved
  - Physical description of persons in harm
  - Number and type of weapons being used
- Document actions and complete incident reports

## Additional steps for our school/facility (if any):

- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_
- \_\_\_\_\_

# Weather Related Emergency

**Watches:** Indicate that conditions are right for development of a weather hazard. *Watches* cover a larger area than *Warnings*. Watches are issued by the National Weather Service Office Severe Storm Prediction Center hours before the anticipated event is forecast to occur.

**Warnings:** Indicate that a hazard is imminent and the probability of occurrence is extremely high. Warnings are issued based on eyewitness reports or identification of specific severe weather signatures on Doppler Radar. Warnings may be issued within minutes of the arrival of most severe weather events. In the case of winter storm warnings, those warnings are often issued hours before the arrival of the weather system. A NOAA Weather Radio, with battery backup, should be installed in all school buildings.

**Advisories:** Issued when weather is expected to disrupt normal routines, but is not expected to be life threatening (e.g., 2-3 inches of snow, dense fog, etc.). Advisory lead times are the same as Watches.

## Upon Issuance of a Watch or Advisory

### Principal / Designee:

- Activate appropriate members of school Emergency Response Team to be alert for possible change in weather status
- Monitor weather reports for change in conditions
- Document actions and complete incident reports

## Upon Issuance of a Warning

### Principal / Designee:

- Implement procedure for use of Safe Zones for Severe Weather
- All students and staff proceed to designated Safe Zones for Severe Weather
- Remain quiet to hear further instructions
- Occupants of portable classrooms should move quickly to the main building to designated Safe Zones for Severe Weather
- Follow standard student accounting and reporting procedures
- Remain in the Safe Zones for Severe Weather until the “all clear” is given
- In the event of building damage, students should be evacuated to safer areas of the building or away from the building
- If evacuation occurs, do not re-enter the building until given the “all clear”
- Document actions and complete incident reports

# Recovery

Kentucky Center for School Safety

***Recovery***

# Key Components of Recovery

Schools and their larger community are confronted with putting the pieces back together following sudden, tragic events such as death or serious injury to students and staff, bus accidents, fires, natural or man-made disasters and violence. The aftermath of tragedies on individual children and adults is not simple to predict. According to the National Institute of Mental Health, research indicates that both adults and children demonstrate a wide range of reactions following a catastrophic event.

The goal after an emergency is to return to the business of learning and restore the infrastructure of the school as quickly as possible. There are four key components of recovery that need to be addressed so that a smooth transition can be achieved back to a relative state of normalcy and the healing process can begin. They are:

1. **Emotional Recovery**
2. **Academic Recovery**
3. **Physical/Structural Recovery**
4. **Business/Fiscal Recovery**

## Emotional Recovery

The purpose of emotional recovery is to promote coping and resiliency for students, staff, and their families following an emergency or crisis. An assessment of their emotional needs is important to determine those who will need intervention by a school counselor, school psychologist, or other mental health professional. Community based resources need to be identified prior to an emergency and available for families, who may seek treatment. Planning for emotional recovery involves establishing key community partnerships, developing policies, providing training, and developing memorandum of understanding (MOU).

For some trauma victims, adverse effects fade with emotional support and the passage of time. Others are more deeply affected and experience long-term consequences. These reactions are normal responses to an abnormal event. Although no one can predict who will experience the most severe reaction to trauma, the more direct the exposure to the event, the higher the risk for emotional harm.

According to the **National Institute of Mental Health**, research indicates that both adults and children demonstrate a wide range of reactions following a catastrophic event. The range of human responses can include physical, cognitive and emotional symptoms including:

- Nausea
- Sleep Disturbance
- Slowed thinking
- Bad memories
- Regressed behavior
- Anxiety
- Guilt
- Depression
- Anger
- Various other responses

## Suggestions for Schools

- Restoring a learning environment as quickly as possible
- Modeling how to recover from the event
- Maintaining basic educational goals

## Suggestions for administrative staff, counselors and teachers

- Reducing conflict among groups
- Creating working partnerships among groups inside and outside of the school
- Following familiar school routines
- Acknowledging the trauma through shared activities and observances
- Representing safety and security
- Supporting children and their families
- Creating opportunities to support caregivers
- Having trained crisis intervention personnel be highly visible in the schools following a crisis
- Remembering that children and their communities are resilient when supported adequately

## Academic Recovery

The following collection of recovery measures is designed to assist teachers and other professionals as they help students as well as adults begin the recovery and healing process. It is essential for school administrators to recognize that recovery is a long-term process of supporting normal people who have experienced abnormal stressors. Initially, individuals may be in shock and may require support to meet basic physical and social support needs. Restoring structure and routine is the key purpose of Academic Recovery and a quick return to “a normal school day” will enhance the healing process.

### Short Term Academic Considerations:

- Quick decision making regarding school/academic routines
- Brief administrators and staff
- Communicate with parents/guardians on events and the plan
- In general, maintaining the school routine is helpful
- Can the school remain open?
- Can the school routine be maintained? Modified?
- Are academic materials needed?

In the months and years that follow a critical incident, individuals may require additional assistance and continued academic support.

### Long Term Academic Considerations:

- Arrange for Homebound/tutoring services for students unable to attend school
- Encourage and support students in the hospital
- Rearrange tests or assignments
- Determine curriculum “triggers”
- Allow for periodic visits to school counselors (around anniversaries, similar events, etc.)

## Physical / Structural Recovery

In the aftermath of a crisis, buildings and grounds may need repairing, repainting and/or landscaping. Restoring facilities to enable the educational operations is an essential part of the planning process. Relocation of educational services and administrative operations may be necessary. Communication will be key with all stakeholders; students, staff, parents and community.

### Considerations for Physical Recovery:

- Assess building/structural component (e.g., Damage Assessment Team)
- Ensure human safety at educational sites and staff availability to teach
- Resume transportation and food services
- Determine availability of equipment and supplies (books)

## Business / Fiscal Recovery

Critical business functions within the school/district have to be restored as soon as possible after the occurrence of an emergency or crisis. It is imperative that the staff are supported. Administrative functions such as payroll systems, accounting departments and personnel records will be necessary for full operation of the school district. Unexpected expenses can tax the budget or large dedicated donations and gifts can require time and resources to manage.

### Considerations for Business Recovery:

- Determine responsibilities to continue educational function
- Identify, in advance, who has responsibility for closing schools, or sending students/staff to alternate locations
- Identify who is responsible for restoring which business functions for schools/districts
- Identify succession plans
- Ensure systems are in place for rapid contract execution in the event of an emergency
- Institute a system for registering out of district students, and for registering students into other schools

# General Strategies for Follow-up to Emergencies / Critical Incidents

The following information may be useful in the days and weeks following an emergency. Long-term follow-up procedures are also listed.

## The Day After: Workday Two of Emergency Management

Convene Emergency Response Team and faculty/staff members to update them on any additional information/procedures.

1. In case of death, provide funeral/visitation information.
2. Identify students and staff in need of follow-up support and assign staff members to monitor vulnerable students:
  - Coordinate counseling opportunities for students
  - Announce ongoing support for students with place, time, and staff facilitator
  - Provide parents with a list of community resources available to students and their families
3. Convene District Support Team to assist with debriefing.
  - Assess system-wide support needs, and develop planned intervention strategies
  - Discuss successes and problems
  - Discuss actions to improve the response (After Action Reporting)
4. Allow staff the opportunity to discuss their feelings and reactions to the incident. The Emergency Response Team should provide a list of suggested readings to teachers, parents and students. (i.e., handouts later in this chapter).
5. Develop a process for screening and registering volunteers.
6. Develop a process for inventorying district and donated supplies.

## Long-Term Follow-up and Evaluation

1. Amend Emergency Response Protocols if needed. The After Action Reporting process is very helpful in this area. This strategy is designed to identify and record perceived strengths and weaknesses in the overall activities that were offered.
2. Write thank-you notes to people who provided support during the emergency.
3. Be alert to anniversaries and holidays. Often students and staff will experience an “anniversary” trigger reaction the following month(s) or year(s) on the date of the emergency, or when similar crises occur.

# Critical Incident Stress Management (CISM)

Critical Incident Stress Management is a comprehensive, integrated multi-component crisis intervention system. CISM services provide a framework for the application of education and crisis intervention during the acute stage following a critical incident. These services enhance and compliment the delivery of traditional mental health services and include:

1. **Pre-crisis preparation:** Working with schools to help set expectations for what to do when a critical incident occurs.
2. **Individual consultation:** A structured one-to-one technique used by a trained counselor or professional after a critical incident.
3. **Briefing:** A presentation to groups following a crisis or critical incident to share information, reduce and dispel rumors, and provide details of action plans.
4. **Defusing:** A group crisis intervention technique conducted by a trained facilitator, usually occurring in the first 12-24 hours after a critical incident.
5. **Debriefing** (a.k.a., Critical Incident Stress Debriefing or CISD). A structured small-group process targeted toward mitigating or resolving the psychological distress associated with a critical incident or traumatic event, usually occurring in the first 10 days following an event.
6. **Parent/family/organization consultation:** A group process conducted to provide ongoing education and support to families, parent groups or organizations following a critical incident.
7. **Referral/follow-up:** A process to assure that individuals experiencing intense symptoms and who need ongoing support will be referred for appropriate mental health services.

*One common way to organize the above interventions is to set up a “Drop in Room.” A Drop in Room is a safe, welcoming place for students or staff to gather during the school day for group or individual support from trained team members.*

# Teachers Helping Children After a Critical Incident

This resource was designed to help teachers assist children and is useful for general disasters as well as emergencies that occur in the lives of individual children.

Emergencies are very traumatic events for children. It's difficult for them to understand and accept that there are events in their lives that can't be controlled or predicted. Worst of all, we adults can't "fix" a disaster, can't solve it, and can't keep it from happening again.

## Ways Teachers Can Assist Students

- Cope with your own natural feelings of helplessness, fear, anger, until you do this, you won't be able to effectively help the children
- Learn to recognize the signs and symptoms of distress and post-traumatic stress reactions
- Put the emergency or critical incident in context; provide a perspective
- Communicate a positive "I'm not helpless" attitude
- Start the healing process; help children to feel relieved and soothed
- Identify children who may need intervention – refer to the appropriate mental health care profession

# Information Sheet to Share with Parents

## Helping Your Child After A Crisis:

Children may be especially upset and express feelings about the disaster. These reactions are normal and usually will not last long. Listed below are some behaviors you may see in your child:

- Excessive fear of darkness, separation, or being alone
- Clinging to parents, fear of strangers
- Worry
- Increase in immature behaviors
- Not wanting to go to school
- Changes in eating/sleeping behaviors
- Increase in either aggressive behavior or shyness
- Bed wetting or thumb sucking
- Persistent nightmares
- Headaches or other physical complaints

## The following will help your child:

- Talk with your child about his/her feelings about the disaster; share your feelings too
- Talk about what happened; give your child information he/she can understand
- Reassure your child that they are safe; you may need to repeat this reassurance often
- Hold and comfort your child often
- Spend extra time with your child at bedtime
- Allow your child to mourn or grieve. If you feel your child is having problems at school, talk to his/her teacher, counselor or principal so you can work together to help him/her

## Ongoing Recovery

Please reread this sheet from time to time in the coming months. Usually a child's emotional response to a crisis will not last long, but some problems may be present or recur for many months afterward. In such cases consideration should be given to making a referral to the community mental health center.

# Disasters and Their Effects

## What is a disaster?

A disaster is a devastating, catastrophic event that can be life threatening and/or injury producing, which may create the following distressful experiences:

### Potential experiences or feelings:

- Sense of fear, worry
- Disruption of home, routine, etc.
- Feeling that one's life was threatened
- Witnessing injuries, death, pain
- Feeling trapped and isolated
- Being out of control of something threatening to life's basics: food, shelter, clothing, people, comfort...even life itself
- Having flashbacks of other catastrophes
- Feeling cut-off from services
- Being separated from loved ones
- Having a sense of mortality
- Feeling "survivor guilt"
- Children who are forced to become "parents" to adults who are scared or worried

## Symptoms of Distress in Children

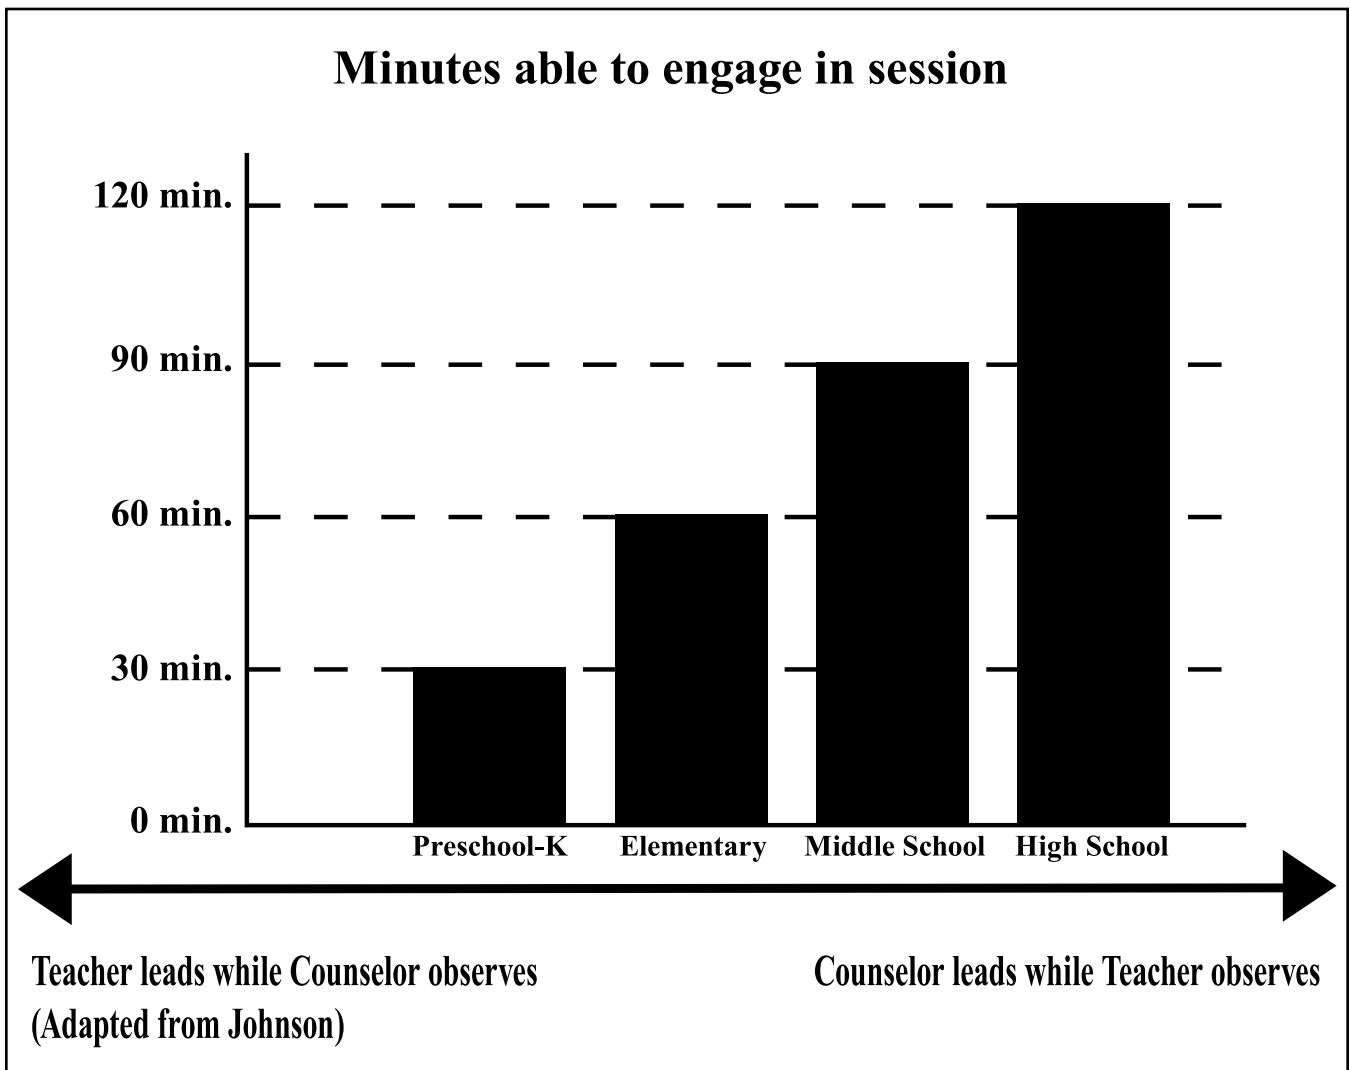

As a result of traumatic experiences some children will show a variety of symptoms of distress. The teacher must first know a child's baseline ("usual") behavior and cultural/ethnic responses before he/she can identify "unusual" or problem behavior in a child.

### Symptoms:

- Any unusual complaints of illness
- Keeping isolated from the rest of the group
- Child seems so pressured, anxious that he/she somehow dominates, has to distract others, or is otherwise in need of attention
- Changed behavior/appearance
- Resistant to opening up (however, child might just be shy, may have language or cultural barrier)
- No eye contact
- Difficulty concentrating, can't focus
- "Feisty" or hyperactive/silly, giddy
- Any emotional display; crying, "regressed" behavior (less than age-appropriate)
- Lack of emotional expression
- Poor performance
- Can't tolerate change; can't move to next task
- Lethargic, apathetic
- Easily startled, jumpy

# Understanding Age-Appropriate CISM Interventions

When providing Critical Incident Stress Management (CISM, Everly & Mitchell) interventions, it is essential to tailor your approach to the developmental level of the students involved. The following chart illustrates a range of minutes suitable for discussion for different age levels, and from “teacher led” to “counselor led” interventions. In general, younger students need more teacher led interventions using activities (as opposed to “discussion”), while older students benefit from counselor led, verbal discussions.

# The Talking Method and the Drawing Method

## (4 Page section)

In using the General to Specific approach, many methods or activities may be effective. Two suggested methods/techniques to use in your class after a critical incident are: The Talking Method and The Drawing Method. The following pages provide suggested questions or themes, and specific techniques.

### Suggested questions to ask/themes to represent:

- Where were you when it (the disaster/event) happened?
- What were you doing?
- Where were your friends? Where was your family?
- What was your first thought when it happened?
- What did you see? What did you hear?
- What sound did it make? What did you smell?
- Was anyone you know killed or injured?
- What can you do now to help others to feel better?
- How did you feel?
- What did other people around you do (during, after)?
- What was the silliest thing you did?
- Were you or anyone else you know injured?
- What happened to pets or other animals around you?
- What dreams did you have after it?
- What reminds you of it? When do you think about it?
- What do you do differently since the event?
- How do you feel now? What makes you feel better?
- How have you gotten through rough times before?
- What would you do differently if it happened again?
- How did you help others? How would you help next time?
- What can you do now to help others?

### Special Considerations:

- Allow for silence for those children with low language skills, shyness, discomfort, etc.
- Encourage peer support for these children
- The teacher should accommodate the child
- If a child has low English skills, consider asking for a translator or a peer to help the child express in words
- Create a chance for verbal expression in any language

NOTE: As the teacher, you might think of more questions to ask the children. Be sure your questions are “open-ended,” which means they cannot be answered by simply a “Yes” or “No”. Open-ended questions serve to facilitate verbal discussion.

# Talking Method Activities

- Child tells a story (allow metaphors)
- Puppets “tell” or “live” a story
- Have an open discussion - using previous questions, ask for volunteers to begin with, talk general to specific
- Use photos, drawings, etc. to facilitate discussions
- Create a skit, play or do role-playing, related to the critical incident (provide “dress-up” clothes if available, including uniforms if possible to represent emergency workers seen during the disaster, etc.)
- Do “show and tell” related to the event
- Inform/educate the children about the event to make it less threatening to talk/act about
- When people understand their feelings and experiences are normal and can be predicted (even if they are scary feelings) they begin to regain control

Note: Remember to keep yourself in a facilitative/guiding role, not in a role of “control” of the discussions/stories etc. This will be most helpful to the children. Reassure the children by verbally acknowledging and “normalizing” their experiences.

## **For some children, the talking method is not helpful:**

- In some cultures, talking openly is not comfortable, appropriate (or even “polite”)
- Some children have been raised in families where “talking-out one’s feelings” was not possible or supported
- Some children have been raised in situations where talking openly was not practiced or encouraged
- Some children simply prefer not to discuss their feelings openly due to personality type, privacy concerns or lack of trust in the process
- All these reasons should be respected as valid

# Drawing Method

The drawing method is a playful experience to express feelings.

## First introduce drawing a:

- Another way of “talking,” but with pictures instead of words
- A means of expression used by many (point out that some people express themselves by talking, some by singing, some by dancing, some by drawing)
- Remember when introducing drawing of any sort to clearly say that the goal is not to draw a “pretty picture” but rather, a picture of expression
- Drawing should be presented to the child as an option for expression, not as a required activity
- **REMEMBER:** Use previous questions to help lead these activities: A question can become a theme for a drawing

## Drawing Method Activities:

- Draw/write a book together or make journals with pictures
- Do a collective drawing such as a mural (murals tell a “collective story,” develop/support teamwork, and feel “safer” for some children as opposed to individual art)
- Give the mural a “place of honor” in the classroom
- Make the mural accessible for everyday viewing
- Celebrate the mural: use it to demonstrate getting through something tough, or to facilitate discussions
- Take photos/slides of the mural when completed
- Draw aspects of the event (people, places, activities, etc.)
- Suggest lots of options, not specifics (e.g., rather than saying “draw a fireman, helping someone,” say “draw a person you saw doing something helpful...”)
- Create a collage (a variety of materials) using a leading question such as “Where were you when the disaster happened?”
- The teacher may draw/paste on the central image, then the children add photos, magazine pictures, articles, fabric pieces, etc. around theme, or may draw directly onto it
- Collages are the “safest” form of “drawing” because the child is using others’ symbols. The child may feel he/she is “losing less of himself/herself”
- Collages provide “boundaries” for the child; this can act as a safety net (emotionally) for some
- You may also want to look at other pictures (drawings, paintings) and talk about what they communicate
- Avoid the use of paint in this method as it is too “loose” of a medium for a traumatized child; the child might use it to bring up things not easily handled in a classroom
- Allow a full range of expression: some children draw recognizable “things”, others draw “abstracts”; respect all varieties
- Allow children to discard their artwork
- Emphasize to the children that their work will not be judged, graded or necessarily shown to others
- Only exhibit the artwork if a child desires to share with others

- Reassure them that there is no “right way” to draw
- Allow the use of various mediums (pastels, crayons, pencils, markers, etc.)
- It’s preferable to do the drawing method with more than one adult present
- Exercise as little control as possible over the artwork

**Concluding Drawing Activities:**

- A key element of the Drawing Method is the follow-up discussion. This discussion can help to bring closure to the experience, an important step in the process of expressing feelings
- Allow those who want to discuss their drawings to do so
- Others will “close” by listening to others
- Use open-ended questions in this process
- Sometimes a child’s artwork may be especially expressive of his/her feelings; a drawing can give “clues” to some deeper problems or feelings within the child
- Try to “read” the picture in the same way you might read words; what might it be telling you?
- Look at it as a piece of communication, not just fantasy

**Keep in mind:**

- Colors, forms, etc. have different meanings to children of various cultural backgrounds and possibly to different children within each culture
- Regard the artwork as just a part of what’s going on with a child; look at the child with a holistic view
- The best source for what’s going on behind the drawing is the child...ask him/her

## If You Have Concerns:

In both methods (Talking and Drawing), you might notice a child exhibiting more serious problems. If you have concerns, refer those children to your **school counselor**.

NOTE: One sign of successful defusing of your students is that they feel better. Another sign of success might be that the defusing process surfaced other problems that will come to your attention. These problems might take on a variety of forms.

- Symptoms might be the same as those for anxiety or depression (physical symptoms, persistent avoidance of being alone, unrealistic worries about harm)
- Child is not able to “let go” of a memory
- The degree of emotionality and the degree of silence are both clues (be sure to talk with the child and simply ask them quietly, confidentiality, how they are feeling and coping)
- Make note of other physical manifestations of stress (as a result of the impact of the event)
- Be aware of different forms of adjustment in each child
- The teacher is not meant to be in the role of “diagnostician”; refer those children you are concerned about to a school counselor, social worker or school psychologist
- Some children may be predisposed to adverse reactions following a critical incident (generally, these are children who have experienced other loss, relocation, death, abuse, crime, etc.)
- An anniversary date of a disaster or death is a predictable time when memories and associated problems may resurface

### **Refer the student if you are unsure:**

- Alert parent/guardians of your concerns
- Contact your school counselor/social worker/school psychologist
- Refer the student to the Student Assistance Team (if applicable)
- Consider a referral to mental health professionals in the community

Through using the methods and techniques in this guide and adding your own unique perspective, expertise and energy, you will help children and perhaps, yourself recover from a traumatic experience.

# Classmate Tragedy

The following section is designed to assist the teacher or counselor in preparing the class to help a student who has experienced a tragedy prior to their return to the class.

## Example: Death of a friend or family member

- Explain what is known of the loss
- Ask if other students have experienced the death of a friend or family member?
- Are there things people said or did that made you feel better?
- How do you think our classmate might be feeling?
- What could you say that might help him/her know you care? Guide students' responses towards helpful comments and away from less helpful comments.
- What would you want someone to say to you if you experienced the death of someone close?
- Are there things you could do that may help them feel better?
- We can take our cues from the person that will guide our actions. What might some of those cues be?

## When A Grieving Classmate Returns (First Words):

- The classmate probably feels like he/she is from a different planet when returning to school
- At least say, "hello," "welcome back," "I'm glad to see you," or something similar
- The brave might even say: "I missed you," "I'm so sorry to hear about your \_\_\_'s death."
- Even braver friends might make statements like, "It must be incredibly tough to have your \_\_\_ die."
- Other options include: write a brief note or card, call, etc.
- If your classmate cries, that is okay; you did not cause the grief; offer comfort and a tissue

## Helping the Classmate Adjust to the Class:

- Offer to provide past notes from missed classes
- Offer to provide notes for comparison for the next week or so (your classmate's attention span will probably vary for several weeks)
- Give the classmate your phone number to call if having problems with homework
- Ask your classmate if you can call to check on how homework is going
- Offer to study together in person or over the phone; this might help with both motivation and with concentration; grieving students frequently do not feel like doing school work

## Some Don'ts:

- Don't shun the student, speak to them
- No cliché statements (e.g., "I know how you feel" when nobody knows the unique relationship the classmate had with the deceased)
- Don't expect the person to snap back into their "old self"
- Don't be surprised if classmate seems unaffected by the loss, everybody has his/her own way of grieving
- Don't be afraid to ask appropriate questions about the deceased, like "what did you and your \_\_\_ enjoy together?" (people often like to talk about the people they grieve)
- Just because the classmate may seem to be adjusting to school again, don't assume the grieving has stopped, nor the need for comfort and friendship

# Caring for the Care Provider

## General Reactions to Emergencies or Critical Incidents in Adults:

### First Reactions May Include:

- Numbness, shock, difficulty believing what has occurred or is in the process of occurring
- Physical and mental reactions may be very slow or confused
- Difficulty in decision making; uncertainty about things; it may be difficult to choose a course of action or to make even small judgment calls

### Ongoing Reactions May Include:

- Loss of appetite, difficulty sleeping, loss of interest or pleasure in everyday activities
- Desire to get away from everyone - even family/friends
- Emotional lability; becoming irritable or upset more quickly than usual
- Feelings of fatigue, hopelessness, helplessness
- Digestive problems; headaches or backaches
- Difficulty accepting that the emergency has had an impact or difficulty accepting support from friends and the community

### Some Things That Can Be Helpful:

- Take time to relax and do things you find pleasant; getting away for a few hours with close friends can be helpful
- Stick with your regular routine for a while; avoid making changes, even if it appears to be a positive change
- Get regular exercise or participate in a regular sport; activity soothes anxiety and helps you relax
- Keep your days as simple as possible; avoid taking on any additional responsibilities or new projects
- Tap sources of assistance with your workload - have students, instructional assistants, or volunteers help grade papers, take care of copying, or help with other time-consuming tasks
- If symptoms of stress persist beyond a few weeks or are severe, seek professional help

# Suggestions for Students Attending a Visitation or a Funeral

## Keep in mind:

- Expect to feel nervous when going to a funeral home or a funeral
- Go with a friend or ask a parent to accompany you
- If this is the first time you've seen the parents, simply offer your condolences; just say, "I am so sorry about \_\_\_'s death" (this may open a conversation)
- Point out something special to you about the deceased
- If the visitation or funeral is open casket, view the body if you want; you do not have to

## Later Involvement:

- After the funeral you may choose to continue to visit the parents; they may continue to want to see the friends of their deceased child
- Continue to talk about their deceased child from time to time

## When Visiting Grieving Parents

This information should be helpful to students when interacting with the parents of a deceased friend. **Always respect the wishes of grieving parents.** These suggestions must fit the parents' needs and requests, as well as the student's own comfort level.

## First Steps:

- In the vast majority of cases the parents find it comforting to see friends of their deceased child
- If you were a close friend of the deceased and you know the parents, then go visit them at their home
- If you were a friend but had not met the parents (yet they know who you are), you might still visit the home
- Other friends might wait until the visitation or funeral
- Send the parents a note or card

## Communication:

- When you visit, do not worry about what to say; your presence is all that is needed; if you wish to take a flower or anything meaningful, that's all right too
- Don't be afraid you will upset the parents by asking or talking about the deceased; they are already upset
- Just sitting with the parents will most likely fill the silence
- Listen, no matter what the topic
- If you were a really close friend, the parents might be pleased for you to visit the deceased friend's room (if you are comfortable doing so)
- You might ask what you can do for them; ask other relatives what you might do to help
- Do not try to take away the grieving parent's pain
- Talk about the deceased person (grieving people often like telling stories about the deceased, "do you remember the time...")
- Offer suggestions only when advice is asked

# Memorials

When a member of the school dies often people will want to find ways to memorialize the student or staff member. A word of caution, carefully think through the type of tribute you pay to a person who has died.

## Consider these points and examples:

- In general, memorials should focus on the life lived, rather than on the method of death.
- Yearbook memorials should be a regular sized picture with a simple statement such as “We’ll miss you”.
- If a school were to create a permanent or lasting memorial for one person, it would be difficult to refuse a similar memorial for another person. For example, a school that planted a tree for a student who died realized this was needed also for a second death and then a third. The resulting group of trees came to be referred to as “the graveyard” by students. Another school had a “memorial tree” die during one dry summer and had to address the hard feelings of the family who thought the tree had not been given proper care.
- There are many wonderful ways to support student’s as loved one’s do need to be remember, examples include: cards, food, kind words, work parties for relatives, scholarship funds, contributions to a favorite charity, flowers, or being remembered after the urgent time of the tragedy.
- Parents and loved ones especially want to know people miss the person and there was great sadness at the loss; they also want to know people assisted the grieving friends.
- Permanent or lasting memorials are not encouraged as a way for schools to remember someone who died as a result of suicide.

# Suicide

A school's general response to a suicide does not differ markedly from a response to any death. However, some issues exclusive to suicide require specific attention.

School administrators must allow students to grieve the loss of a peer without glorifying the method of death. Over emphasis on a suicide may be interpreted by vulnerable students as a glamorization of the suicidal act. In rare cases this can trigger other individuals with similar tendencies to consider suicide as a viable option.

The following “**DO’s**” and “**DON’Ts**” will help school staff limit glamorization of suicide:

- **Do** acknowledge the suicide as a tragic loss of life
- **Do** provide support for students profoundly affected by the death
- **Don’t** organize school assemblies to honor the deceased student
- **Don’t** dedicate the yearbook or yearbook pages, newspaper articles, proms, athletic events, or advertisements to the deceased individual
- **Don’t** pay tribute to a suicidal act by planting trees, hanging engraved plaques or holding other memorial activities

A suicide in the school community can heighten the likelihood, in the subsequent weeks, of “copycat” suicide attempts and threats among those especially vulnerable to the effects of a suicide. To prevent further tragedies, students considered to be especially susceptible to depression/suicide must be carefully monitored and appropriate action taken if they are identified as high risk. These efforts require an intensive one on one intervention rather than a school wide response.
